### ERW2303/12: THE APPOINTMENT OF A PANEL OF SERVICE PROVIDERS FOR THE CIVIL MAINTENANCE AND CONSTRUCTION INCLUDING THE RENTAL OF PLANT, VEHICLES AND EQUIPMENT FOR VARIOUS ERWAT SITES OVER A FIXED PERIOD ON 'AN AS AND WHEN REQUIRED' BASIS

#### T1.2 TENDER DATA

#### General

The conditions of tender are the Standard Conditions of Tender as contained in Annex F of Board Notice 136 of 2015 in Government Gazette 38960 of 10 July 2015, Construction Industry Development Board (CIDB) Standard for Uniformity in Construction Procurement. See [www.cidb.org.za](http://www.cidb.org.za) which is reproduced without amendment or alteration for the convenience of Bidders as an Annex to this Tender Data.

The Standard Conditions of Tender make several references to the Tender Data for details that apply specifically to this tender. The Tender Data shall have precedence in the interpretation of any ambiguity or inconsistency between it and the standard Conditions of Tender. Each item of data given below is cross-referenced to the clause in the Standard Conditions of Tender to which it mainly applies.

**The following Standard Conditions of Tender as set out in the Tender Data below shall apply to this tender.**

Clause No.	TENDER DATA
F1.1	<p><b>The Employer is:</b></p> <p>Ekurhuleni Water Care Company (ERWAT)  Hartebeestfontein Office Park  R25 (Bapsfontein/Bronkhorstspuit Road)  Kempton Park</p>
F.1.2	<p><b>The Tender document's contents is as follows:</b></p> <p><b><u>THE TENDER</u></b></p> <p><b>Part T1: Tender Procedures (Pink)</b></p> <p>T1.1 Tender notice and invitation to Tender</p>

	In the event that no correspondence or communication is received from ERWAT within one hundred and twenty (120) days after the stipulated closing date and time of the Tender, the Tender proposal will be deemed to be unsuccessful.
<b>F.1.5</b>	<p><b>Reject or Accept</b></p> <p>The Employer may accept or reject any variation, deviation, Tender offer, or alternative Tender offer, and may cancel the Tender process and reject all Tender offers at any time before the formation of a contract. The employer shall not accept or incur any liability to a bidder for such a cancellation and rejection, but will give written reasons for such action upon written request to do so.</p>
<b>F.2.1</b>	<p><b>CIDB Requirements</b></p> <p>Only those Bidders who are registered with the CIDB, or are capable of being so prior to the evaluation of submissions, in a contractor grading designation equal to or higher than a contractor grading designation determined in accordance with the sum tendered, or a value determined in accordance with Regulation 25 (1B) or 25(7A) of the Construction Industry Development Regulations, for a <b>8CE OR HIGHER class</b> of construction work, are eligible to have their tenders evaluated.</p> <p>Furthermore, the contractor grading designations (<b>8CE OR HIGHER</b>) for construction works taking place over an agreed period shall be based on the entire contract value where such work is:</p> <ul style="list-style-type: none"> <li>on an "as and when required" basis</li> </ul> <p>Joint ventures are eligible to submit tenders provided that:</p> <ol style="list-style-type: none"> <li>Every member of the joint venture is registered with the CIDB:</li> <li>The lead partner must be registered in a contractor grading designation not lower than one level below the required grading designation in the class of construction works under consideration. Please consult the CIDB website for the provisions for joint venture submission.</li> <li>The combined contractor grading designation calculated in accordance with the Construction Industry Development Regulations is equal to or higher than a contractor grading designation determined in accordance with the sum tendered for a <b>8CE or higher</b> of construction work or a value determined in accordance with Regulation 25 (1B) or 25(7A) of the Construction Industry Development Regulations.</li> <li>The bulk of the work for this Contract is Mechanical, however it may also include civil, electrical and control &amp; instrumentation aspects. Should these portions be sub-contracted, each Sub-Contractor shall have a sufficient CIDB grading in their field to cover their portion of the Contract price. An indication of the portion of the total Contract price allocated to each Sub-Contractor as well as proof of each Sub-Contractors CIDB grading shall be included in the Bidders submissions.</li> </ol>
<b>F.2.2</b>	<p><b>Cost of Bidding</b></p> <p>Accept that the Employer will not compensate the Bidders for any costs incurred in the preparation and submission of a tender offer, including the costs of any testing necessary to demonstrate that aspects of the offer satisfy requirements.</p>
<b>F.2.3</b>	<p><b>Check documents</b></p> <p>The Bidder shall satisfy himself that the set of tender documents is complete and in accordance with the index. If any page has been omitted or duplicated, or if the script or dimensions, or anything else in the tender</p>

**Form C– “Authority for Signatory”.**

- No authority for signatory submitted.
- Particulars required in respect of the proposal have not been provided: non-compliance of Tender requirements and/or specifications.
- The Bidder's attempts to influence, or has in fact influenced the evaluation and/or awarding of the contract.
- The Proposal has been submitted after the relevant closing date and time.
- If any municipal rates and taxes or municipal service charges owed by that Bidder or any of its directors to the company, or to any other company or municipal entity, are in arrears for more than three months (90 days).
- If any Bidder who during the last five years has failed to perform satisfactorily on a previous contract with the company or any other organ of state after written notice was given to that Bidder that performance was unsatisfactory.

**2. Good standing with SA Revenue Services**

- Determine whether the bidders tax matters are in order as provided for by SARS.
- The Bidder must complete the MBD 2 form in the returnable schedule and or attach their valid SARS Pin to verify their Tax matters to the designated page of the Tender document.

If the Tender does not meet the requirements contained in the ERWAT Supply Chain Policy, and the mentioned framework, it will be rejected and may not subsequently be made acceptable by correction or withdrawal of the non-conforming deviation or reservation.

**3. Penalties**

ERWAT will, if upon investigation it is found that a preference in terms of the Preferential Procurement Policy Framework Act, 2000 and these regulations has been obtained on a fraudulent basis, or any specified goals are not attained in the performance of the contract, one or more of the following penalties will be imposed:

- Cancel the contract and recover all losses or damages incurred or sustained from the Bidder.
- Impose a financial penalty of twice the theoretical financial preference associated with the claim, which was made in the Tender.
- Restrict the firm, its shareholders and directors on obtaining any business from ERWAT for a period of 5 years and blacklisted on the National Treasury database of restricted suppliers.

**4. Evaluation Criteria**

ERWAT will establish a Bid Evaluation Committee (BEC) whose responsibility it is to make recommendations to the Bid Adjudication Committee (BAC). The Bid Evaluation Committee will short list and evaluate the bid document in accordance with the criteria below and make recommendations to the BAC.

- 1) Pre compliance evaluation to be done and pre-qualified bidders goes through for the functionality evaluation. Where some pre compliance information is not provided the ERWAT supply chain will contact the responsible bidder to submit within 5 working days and failure to do so will result in disqualification.
- 2) Score Bid evaluation points for price and specific goals points
- 3) Calculate total Bid evaluation points, to two decimal places
- 4) Rank Bid offers from the highest number of Bid evaluation points to the lowest

**MBD 6.1**

**PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022**

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

**NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022**

**1. GENERAL CONDITIONS**

1.1 The following preference point systems are applicable to invitations to tender:

- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

**1.2 To be completed by the organ of state**

- a) The applicable preference point system for this tender is the 90/10 preference point system.
- b) The 90/10 preference point system will be applicable in this tender. The lowest/ highest acceptable tender will be used to determine the accurate system once tenders are received.

1.3 Points for this tender shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

**1.4 To be completed by the organ of state:**

The maximum points for this tender are allocated as follows:

	<b>POINTS</b>
<b>PRICE</b>	90
<b>SPECIFIC GOALS</b>	10
<b>Total points for Price and SPECIFIC GOALS</b>	<b>100</b>

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

**2. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES**

**2.1 POINTS AWARDED FOR PRICE**

**2.1.1 THE 90/10 PREFERENCE POINT SYSTEMS**

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

A maximum of 90 points is allocated for price on the following basis:

**90/10**

$$P_s = 90 \left( 1 - \frac{P_t - P_{min}}{P_{min}} \right)$$

Where

P<sub>s</sub> = Points scored for price of tender under consideration

P<sub>t</sub> = Price of tender under consideration

P<sub>min</sub> = Price of lowest acceptable tender

### 3. POINTS AWARDED FOR SPECIFIC GOALS

3.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:

**Table 1: Specific goals for the tender and points claimed are indicated per the table below.**

**Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)**

The specific goals allocated points in terms of this tender	Number of points allocated (90/10 system) (To be completed by the organ of state)
EME or QSE 51% owned by women	2
EME or QSE 51% owned by youth	2
EME or QSE 51% owned by people with disabilities	2
EME or QSE 51% owned by military veterans	2
EME or QSE within the boundaries of Ekurhuleni Municipality	2

The above information will be verified in accordance with the bidders B-BBEE certificate, and or a certificate from the companies and intellectual property commission (CIPC), the department of Military Veterans and or other supporting documents. All supporting evidence must be submitted in order to claim the preferential procurement points claimed. ERWAT reserves the right to verify the information submitted.

In the case of multi-parties (Joint ventures, consortiums, partnerships, etc.), allocation of points will be calculated by adding the individual parties in the JV, etc. ownership % together; divide the total by the number of parties in the respective joint ventures, consortiums, partnerships, etc. The average % will thus be the indicating factor for the number of points to be scored limited to the maximum available points.

e.g. Joint venture:

Party 1 = 51% EME/QSE owned by women

Party 2 = 100% EME/QSE owned by women

= **151%** / 2 parties in the JV = 75% and will score = 2 points

The above principle will apply to points 1, 2, 3 & 4 indicated in Table 1 above.

For point 5: The collective JV agreement's address, or the Lead JV partners' domicile Address will be utilized for scoring of points.

### DECLARATION WITH REGARD TO COMPANY/FIRM

3.2. Name of company/firm.....

3.3. Company registration number: .....

3.4. TYPE OF COMPANY/ FIRM

- ☐ Partnership/Joint Venture / Consortium
- ☐ One-person business/sole propriety
- ☐ Close corporation
- ☐ Public Company
- ☐ Personal Liability Company
- ☐ (Pty) Limited
- ☐ Non-Profit Company
- ☐ State Owned Company

[TICK APPLICABLE BOX]

3.5. I, the undersigned, who is duly authorised to do so on behalf of the company/firm, certify that the points claimed, based on the specific goals as advised in the tender, qualifies the company/ firm for the preference(s) shown and I acknowledge that:

- i) The information furnished is true and correct;
- ii) The preference points claimed are in accordance with the General Conditions as indicated in paragraph 1 of this form;
- iii) In the event of a contract being awarded as a result of points claimed as shown in paragraphs 1.4 and 4.2, the contractor may be required to furnish documentary proof to the satisfaction of the organ of state that the claims are correct;
- iv) If the specific goals have been claimed or obtained on a fraudulent basis or any of the conditions of contract have not been fulfilled, the organ of state may, in addition to any other remedy it may have –
  - (a) disqualify the person from the tendering process;
  - (b) recover costs, losses or damages it has incurred or suffered as a result of that person's conduct;
  - (c) cancel the contract and claim any damages which it has suffered as a result of having to make less favourable arrangements due to such cancellation;
  - (d) recommend that the tenderer or contractor, its shareholders and directors, or only the shareholders and directors who acted on a fraudulent basis, be restricted from obtaining business from any organ of state for a period not exceeding 10 years, after the *audi alteram partem* (hear the other side) rule has been applied; and
  - (e) forward the matter for criminal prosecution, if deemed necessary.

**DECLARATION OF BIDDER'S PAST SUPPLY CHAIN MANAGEMENT PRACTICES**

- 1 This Municipal Bidding Document must form part of all bids invited.
- 2 It serves as a declaration to be used by municipalities and municipal entities in ensuring that when goods and services are being procured, all reasonable steps are taken to combat the abuse of the supply chain management system.
- 3 The bid of any bidder may be rejected if that bidder, or any of its directors have:
  - a. abused the company's / municipal entity's supply chain management system or committed any improper conduct in relation to such system;
  - b. been convicted for fraud or corruption during the past five years;
  - c. wilfully neglected, reneged on or failed to comply with any government, municipal or other public sector contract during the past five years; or
  - d. Been listed in the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004).
- 4 **In order to give effect to the above, the following questionnaire must be completed and submitted with the bid.**

Item	Question	Yes	No
4.1	<p>Is the bidder or any of its directors listed on the National Treasury's Database of Restricted Suppliers as companies or persons prohibited from doing business with the public sector?</p> <p>(Companies or persons who are listed on this Database were informed in writing of this restriction by the Accounting Officer/Authority of the institution that imposed the restriction after the <i>audi alteram partem</i> rule was applied).</p> <p>The Database of Restricted Suppliers now resides on the National Treasury's website (<a href="http://www.treasury.gov.za">www.treasury.gov.za</a>) and can be accessed by clicking on its link at the bottom of the home page.</p>	<p>Yes</p> <input type="checkbox"/>	<p>No</p> <input type="checkbox"/>

**MBD 9**

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

1. This Municipal Bidding Document (MBD) must form part of all bids<sup>1</sup> invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
  - a. take all reasonable steps to prevent such abuse;
  - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
  - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

### **CERTIFICATE OF INDEPENDENT BID DETERMINATION**

I, the undersigned, in submitting the accompanying bid:

**DESCRIPTION: ERW2303/12: THE APPOINTMENT OF A PANEL OF SERVICE PROVIDERS FOR THE CIVIL MAINTENANCE AND CONSTRUCTION INCLUDING THE RENTAL OF PLANT, VEHICLES AND EQUIPMENT FOR VARIOUS ERWAT SITES OVER A FIXED PERIOD ON 'AN AS AND WHEN REQUIRED' BASIS**

in response to the invitation for the bid made by:

**EKURHULENI WATER CARE COMPANY (ERWAT)**

(Name of Municipality/Entity)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of \_\_\_\_\_(Name of Bidder) that:

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
  - (a) has been requested to submit a bid in response to this bid invitation;
  - (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
  - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium<sup>3</sup> will not be construed as collusive bidding.
7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
  - (a) prices;
  - (b) geographical area where product or service will be rendered (market allocation)
  - (c) methods, factors or formulas used to calculate prices;
  - (d) the intention or decision to submit or not to submit, a bid;
  - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or

- (f) bidding with the intention not to win the bid.
8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No. 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No. 12 of 2004 or any other applicable legislation.

**OFFER**

The Employer, identified in the Acceptance signature block, has solicited offers to enter in contract in respect of the following works: **PROJECT NO: ERW2303/12: THE APPOINTMENT OF A PANEL OF SERVICE PROVIDERS FOR THE CIVIL MAINTENANCE AND CONSTRUCTION INCLUDING THE RENTAL OF PLANT, VEHICLES AND EQUIPMENT FOR VARIOUS ERWAT SITES OVER A FIXED PERIOD ON 'AN AS AND WHEN REQUIRED' BASIS**

The Bidder, identified in the Offer signature block below, has examined the documents listed in the Tender Data and addenda thereto as listed in the Tender Schedules, and by submitting this Offer has accepted the Conditions of Tender.

By the representative of the Bidder, deemed to be duly authorised, signing this part of this Form of Offer and Acceptance, the Bidder offers to perform all of the obligations and liabilities of the Contractor under the Contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the Conditions of Contract identified in the Contract Data.

**THE OFFERED RATES FOR THE GOODS, AS SET OUT IN THE PRICING SCHEDULE/BILL OF QUANTITIES (THE PRICES INCLUSIVE OF VALUE ADDED TAX), IS HEREBY CONFIRMED FOR THE PERIOD OF THE CONTRACT PERIOD INCLUDING THE PROVISIONS FOR THE ANNUAL ESCALATIONS (WHERE APPLICABLE)**

This Offer may be accepted by the Employer by signing the Acceptance part of this Form of Offer and Acceptance and returning one copy of this document to the Bidder before the end of the period of validity stated in the Tender Data, whereupon the Bidder becomes the party named as the Contractor in the Conditions of Contract identified in the Contract Data.

## ACCEPTANCE

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the Bidder's Offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the Conditions of Contract identified in the Contract Data. Acceptance of the Bidder's Offer shall form an agreement between the Employer and the Bidder upon the terms and conditions contained in this Agreement and in the Contract that is the subject of this Agreement.

The terms of the contract are contained in:

- Agreements and Contract Data (which includes this Agreement)
- Pricing Data
- Scope of Work
- Site information

And drawings and documents or parts thereof, which may be incorporated by reference into above stated terms.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Tender Schedules as well as any changes to the terms of the Offer agreed by the Bidder and the Employer during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Agreement. No amendments to or deviations from said documents are valid unless contained in this Schedule, which must be duly signed by the authorised representative(s) of both parties.

The Bidder shall within two weeks after receiving a completed copy of this Agreement, including the Schedule of Deviations (if any), contact the Employer (whose details are given in the Contract Data) to arrange the delivery of any bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the Conditions of Contract identified in the Contract Data at or just after the date this Agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this Agreement.

Notwithstanding anything contained herein, this Agreement comes into effect on the date when the Bidder receives one fully completed original copy of this document, including the Schedule of Deviations (if any). Unless the Bidder (now Contractor) within five days of the date of such receipt notifies the Employer in writing of any reason why he cannot accept the contents of this Agreement, this Agreement shall constitute a binding contract between the parties.

## SCHEDULE OF DEVIATIONS

**Notes:**

1. The extent of deviations from the tender documents issued by the Employer prior to the tender closing date is limited to those permitted in terms of the Conditions of Tender.
2. A Bidder's covering letter shall not be included in the final contract document. Should any matter in such letter, which constitutes a deviation as aforesaid becomes the subject of agreements reached during the process of Offer and Acceptance; the outcome of such agreement shall be recorded here.
3. Any other matter arising from the process of offer and acceptance either as a confirmation, clarification or change to the Tender documents and which it is agreed by the Parties becomes an obligation of the contract, shall also be recorded here.
4. Any change or addition to the tender documents arising from the above agreements and recorded here shall also be incorporated into the final draft of the Contract.

## C1.2 CONTRACT DATA

### GENERAL CONDITIONS OF CONTRACT

This Contract will be based on the "General Conditions of Contract for Construction Works *General Conditions of Contract 2015 (GCC 2015, Third Edition)*

Documents can be ordered from SAICE who can be contacted through their website [www.saice.org.za](http://www.saice.org.za). Physical address: SAICE House, Block 9, Thornhill Office Park, Bekker Street, Midrand, Johannesburg. Telephone number: (011) 805 5947.

It is agreed that the only variations from the General Conditions of Contract 2015 are those set out hereafter under "Special Conditions of Contract".

### SPECIAL CONDITIONS OF CONTRACT

These Special Conditions of Contract (SCC) form an integral part of the Contract. The Special Conditions of Contract shall amplify, modify or supersede, as the case may be, the General Conditions of Contract 2015 to the extent specified below, and shall take precedence and shall govern.

The clauses of the Special Conditions hereafter are numbered "SCC" followed in each case by the number of the applicable clause or subclause in the General Conditions of Contract 2015, and the applicable heading, or (where a new special condition that has no relation to the existing clauses is introduced) by a number that follows after the last clause number in the General Conditions, and an appropriate heading.

*"The Special Conditions of Contract are supplementary to that of the General Conditions of Contract. In the event of any contradiction between the GCC or any other applicable contractual agreement, the Municipal Financial Management Act and its applicable regulations will take precedence."*

The contract will commence on the last signature date of the Service Level Agreement.

If the tender is found to be unauthorised, fruitless and wasteful or irregular as informed through a formal investigation, internal and or external audit outcome, the Auditor General, Council, ERWAT Board of Directors or National Treasury, ERWAT reserves the right to cancel the tender with immediate effect and the bidder will have no claim to this affect. The final terms of payment (where applicable) will be negotiated with the bidder at the time for final close out of the contract.

## AMENDMENTS TO THE GENERAL CONDITIONS OF CONTRACT

### DATA PROVIDED BY THE EMPLOYER

Clause	Data
	<p><b>Definitions</b></p> <p>The definitions contained in Clause 1.1 are hereby amended and/or supplemented as follows:</p>
<b>SCC 1.1.1.13</b>	<p>The Defects Liability Period is <b>12</b> months from the date of the Certificate of Completion.</p> <p>The Defects Liability Period is <b>12</b> months from the date of the Certificate of Completion per installation</p>
<b>SCC 1.1.1.14</b>	<p>The Works shall be completed within <b>36</b> months from the commencement date on an “as and when required basis”.</p> <p>The Purchase Orders of the Works shall be placed within <b>36</b> months from the commencement date on an “as and when required basis”.</p>
<b>SCC 1.1.1.15 1.2.1.2</b>	<p>The Name of the Employer is <b>ERWAT</b></p> <p>The address of the Employer is:</p> <p>The Managing Director Hartebeestfontein Office Park R25 (Bapsfontein/Bronkhorstspuit) Kempton Park</p> <p>Telephone: 011 929 7000</p>
<b>SCC 3.2.3</b>	<p><b>Add the following:</b></p> <p>Approval of the Employer is required for:</p> <p>i). Cessions – issuing of cessions by the Contractor is expressly prohibited except if and when prior written approval of the Employer under the signature of the Accounting Officer for the issue of the cession has been requested and obtained. (Subject to the provisions of National Treasury MFMA circular 120 of 2022)</p> <p>ii). Use of contingencies – for all items for which rates have not been approved in terms the contract.</p> <p>iii). Extension of Time – extension of time can only be granted by the Employer.</p>
<b>SCC 4.1.2</b>	<p><b>Add the following:</b></p> <p>“When completed, the parts of the works designed by the Contractor, to the extent specified in the Contract, shall be fit for the purposes for which the Works are intended”</p>

Clause	Data
<b>SCC 4.9.1</b>	<p><b>Add the following:</b></p> <p>"All equipment on site shall be in a good working order, and is to be in such a condition that it can achieve production rates which are typical of the industry standards.</p> <p>Should any equipment, in the opinion of the Employer, be substandard or breaks down frequently to such an extent that it affects the progress on the project, the Employer may instruct the Contractor to replace such equipment."</p>
<b>SCC 5.3.1</b>	<p><b>Add the following to 5.3.1:</b></p> <p>The documentation required before Commencement of the Works are:</p> <ul style="list-style-type: none"> <li>• Health &amp; Safety Plan (Refer to Cl. 4.3 of GCC 3<sup>rd</sup> Ed 2015)</li> <li>• Initial Programme (Refer to Cl. 5.6 of GCC 3<sup>rd</sup> Ed 2015)</li> <li>• Security (Deed of Guarantee) (refer to Cl. 6.2 of GCC 3<sup>rd</sup> Ed 2015)</li> <li>• Insurances (Refer to Cl. 8.6 of GCC 3<sup>rd</sup> Ed 2015)</li> </ul>
<b>SCC 5.3.3</b>	<p><b>Add the following:</b></p> <p>The time to the documentation required before Commencement of the Works execution is <b>28</b> days</p>
<b>SCC 5.4.1</b>	<p><b>Add the following:</b></p> <p>The Commencement Date shall be the date the contractor is given possession of site.</p>
<b>SCC 5.8.1</b>	<p><b>Add the following:</b></p> <p>The special non-working days are the official builder's holiday plus all statutory public holidays.</p>
<b>SCC 5.12</b>	<p><b>Add the following:</b></p> <p>A delay caused by inclement weather conditions will be regarded as a delay only if, in the opinion of the Employer, all progress on an item or items of work on the critical path of the working programme of the contractor has been brought to a halt.</p> <p>Delays on working days only (based on a five-day working week) will be taken into account for the extension of time, but the Contractor shall make provision in his programme of work for an expected delay of "n" working days caused by normal rainy weather, for which he will not receive any extension of time, where "n" equals 5 days.</p> <p>Extension of time during working days will be granted to the degree to which actual delays, as defined above, exceed the number of "n" workings days.</p>
<b>SCC 5.12.2.1</b>	<p><b>Add the following:</b></p> <p>Extensions of time in respect of clause 5.12 in respect of abnormal rainfall shall be calculated using the following formula for each calendar month or part thereof:</p> $V = (Nw - Nn) + \frac{(Rw - Rn)}{X}$ <p>Where:</p>

Clause	Data
	<p>V = Extension of time in calendar days in respect of the calendar month under consideration.</p> <p>Nw = Actual number of days during the calendar month on which a rainfall of 10 mm or more has been recorded.</p> <p>Nn = Average number of days in the relevant calendar month, as derived from existing rainfall records, on which a rainfall of 20mm or more has been recorded for the calendar month.</p> <p>Rw = Actual average rainfall in mm recorded for the calendar month under consideration.</p> <p>Rn = Average rainfall in mm for the calendar month as derived from existing rainfall records as stated in the Site Information.</p> <p>For purposes of the Contract Nn, Rn, X and Y shall have those values assigned to them in the South African Weather Service's rainfall records of the nearest station to the site.</p> <p>If V is negative and its absolute value exceeds Nn, then V shall be taken as equal to minus Nn.</p> <p>The total extension of time shall be the algebraic sum of all monthly totals for the period under consideration, but if the total is negative the time for completion shall not be reduced due to subnormal rainfall. Extensions of time for part of a month shall be calculated using pro rata values of Nn and Rn.</p> <p>This formula does not take account flood damage which could cause further or concurrent delays and will be treated separately as far as extension of time is concerned.</p> <p>The factor (Nw – Nn) shall be considered to represent a fair allowance for variations from the average in the number of days during which rainfall exceeds 10 mm. The factor (Rw-Rn) shall be considered to represent a fair allowance for variations from the average in the number of days during which the rainfall did not exceed 10 mm but wet conditions prevented or disrupted work.</p> <p>For the purpose of applying the formula, accurate rain gauging shall be taken at a suitable point on the Site and the Contractor shall at his own expense, take all necessary precautions to ensure that rain gauges cannot be interfered with by unauthorized persons.</p>
<b>SCC 5.13.1</b>	<p><b>Add the following:</b></p> <p>The penalty for failing to complete the works is shall be calculated as follows; Purchase Order value multiply 0.04% per day</p>
<b>SCC 6.9.1</b>	<p>All materials shall comply with the requirements of the South African Bureau of Standards, and shall bear the official standardization mark. Where SABS standard does not exist for a certain material, or a material does not bear the official standardization mark, the Client's Representatives approval of such material must be gained before use thereof.</p>
<b>SCC 6.10.1.5</b>	<p><b>Add the following:</b></p> <p>The percentage advance on materials not yet built into the Permanent Works but received on site is <b>80%</b>.</p>

Clause	Data
<b>SCC 7.2.1</b>	<p><b>Add the following:</b></p> <p>All materials shall comply with the requirements of the South African Bureau of Standards, and shall bear the official standardization mark. Where SABS/SANS/ISO standard does not exist for a certain material, or a material does not bear the official standardization mark, the Employers approval of such material must be gained before use thereof.</p>
<b>SCC 8.6.1.1.2</b>	<p><b>Add the following:</b></p> <p>The value of the materials supplied by the Employer to be included in the insurance sum is nil.</p>

#### C1.4 OCCUPATIONAL HEALTH AND SAFETY

##### **AGREEMENT IN TERMS OF THE OCCUPATIONAL HEALTH AND SAFETY ACT, 1993 (ACT NO 85 OF 1993)**

THIS AGREEMENT IS made at .....

on the ..... day of ..... in the year .....

Between EKURHULENI WATER CARE COMPANY (ERWAT) (hereinafter called "the Employer") of the one part, herein represented by .....

In his capacity as .....

and delegate of the Employer in terms of the Employer's standard powers of delegation pursuant to the provisions of Act No 7 of 1998,

and .....

(hereinafter called "the Mandatory") of the other part, herein represented by .....

.....

in his capacity as .....

and being duly authorized by virtue of a resolution appended hereto as Annexure A;

WHEREAS the Employer requires certain works be constructed, viz **ERW2303/12 THE APPOINTMENT OF A PANEL OF SERVICE PROVIDERS FOR THE CIVIL MAINTENANCE AND CONSTRUCTION INCLUDING THE RENTAL OF PLANT, VEHICLES AND EQUIPMENT FOR VARIOUS ERWAT SITES OVER A FIXED PERIOD ON 'AN AS AND WHEN REQUIRED' BASIS** and has accepted a Bid by the Mandatory for the construction, completion and maintenance of such Works and whereas the Employer and the Mandatory have agreed to certain arrangements and procedures to be followed in order to ensure compliance by the Mandatory with the provisions of the Occupational Health and Safety Act, 1993 (Act 85 of 1993).

NOW THEREFORE THIS AGREEMENT WITNESSED AS FOLLOWS:

- 1 The Mandatory shall execute the work in accordance with the Contract Documents pertaining to this Contract.
- 2 This Agreement shall hold good from its Commencement Date, which shall be the date of a written notice from the Employer or engineer requiring him to commence the execution of the Works, to either –
  - (a) the date of the Final Approval Certificate issued in terms of Clause 5.16 of the General Conditions of Contract 2015 (hereinafter referred to as "the GCC"), as contained in the Contract Documents pertaining to this Contract, or
  - (b) The date of termination of the Contract in terms of Clauses 9.1, 9.2, 9.3 of the GCC.

- 3 The Mandatory declares himself to be conversant with the following:
- (a) All the requirements, regulations and standards of the Occupational Health and Safety Act (Act 85 of 1993), hereinafter referred to as "The Act", together with its amendments and with special reference to the following Sections of the Act:
    - (i) Section 8 : General duties of Employers to their employees
    - (ii) Section 9 : General duties of Employers and self-employed persons to persons other than employees
    - (iii) Section 37: Acts or omissions by employees or mandatories
    - (iv) Sub-section 37(2) relating to the purpose and meaning of this Agreement
  - (b) The procedures and safety rules of the Employer as pertaining to the Mandatory and to all his subcontractors.
- 4 In addition to the requirements of Clause 8.4 of the GCC (as amended by Special Condition of Contract) and all relevant requirements of the above-mentioned Volume, the Mandatory agrees to execute all the Works forming part of this Contract and to operate and utilize all machinery, Plant and equipment in accordance with the Act.
- 5 The Mandatory is responsible for the compliance with the Act; the safety procedures and rules of the employer by all his subcontractors, whether or not selected and/or approved by the Employer.
6. The Mandatory warrants that all his and his subcontractors' workmen are covered in terms of the Compensation for Occupational Injuries and Diseases Act, 1993 (Act No 130 of 1993), which cover, shall remain in force whilst any such workmen are present on site. A letter of good standing from the Compensation Commissioner to this effect must be produced to the Employer upon signature of the agreement.
7. The Mandatory undertakes to ensure that he and/or subcontractors and/or their respective employers will at all times comply with the following conditions:
- a) The Mandatory shall assume the responsibility in terms of Section 16.1 of the Act. The Mandatory shall not delegate any duty in terms of Section 16.2 of this Act without the prior written approval of the Employer. If the Mandatory obtains such approval and delegates any duty in terms of section 16.2 a copy of such written delegation shall immediately be forwarded to the Employer.
  - b) All incidents referred to in the Act shall be reported by the Mandatory to the Department of Labour as well as to the Employer. The Employer will further be provided with copies of all written documentation relating to any incident.
  - c) The Employer hereby obtains an interest in the issue of any formal enquiry conducted in terms of section 32 of the Act into any incident involving the Mandatory and/or his employees and/or his subcontractors.

In witness hereof the parties are to set their signatures hereon in the presence of the subscribing witnesses:

### **C1.5 CORPORATE GOVERNANCE BREACH CLAUSE**

1. Ekurhuleni Water Care Company ("ERWAT") requires [insert name of company] ("the Company") to comply, mutatis mutandis with the Code contained in the King III Report and Code of Good Corporate Governance (below "the Code") for the term of this Agreement and any extension thereof.
2. The Company irrevocably undertakes and agrees that it will, mutatis mutandis, comply with the Code for the term of this Agreement and any extensions thereof.
3. The Company acknowledges and agrees that:
  - 3.1 It is essential that the Company complies with the Code, in order to discharge all of its obligations under and in terms of the Agreement in a proper, efficient and professional manner, and
  - 3.2 ERWAT will be prejudiced and may suffer damages in the event of the Company failing to comply with the Code.
4. The Company shall be required, within seven (7) days of the end of each calendar month during the term of this Agreement (and any extensions thereof), to furnish ERWAT with a written certificate, signed by the directors of the Company [alternatively members of the Close Corporation], certifying that the Company has complied with the provisions of the Code during the preceding months.
5. ERWAT shall have the right, without assigning any reason therefore and at any time, to appoint either the Institute of Directors of South Africa or a firm of chartered accountants or attorneys, to conduct an audit of the business and affairs of the Company in order to ascertain whether the Company is indeed complying with the terms of the Code.

To this end, the Company irrevocably undertakes and agrees to co-operate fully with the party conducting such investigation for and on behalf of ERWAT and to make available to such party all such documentation and all such information as the investigation party may require to fully discharge its obligations under and in terms hereof and to report fully to ERWAT.

In the event of it being found that the Company is not complying with the Code, then ERWAT shall be entitled to (a) regard this as a breach of the agreement and (b) recover the costs of the investigation, on an attorney and client basis, from the Company. In the event of it being found that the Company is, in fact, discharging its obligations under and in terms of the Code, then ERWAT shall bear the costs incurred in such investigation. In either of the foregoing events, the Company shall be entitled to receive a copy of the written report once same has been concluded by the investigating party.

6. In the event of the Code being replaced with another Code (or similar document), then such replacement document shall replace the Code and a reference to the Code shall be deemed to be a reference to such replacement document. The reference to the Code shall be deemed to include any statutory codification of directors' obligations and duties which may be enacted in the Republic of South Africa at any time in the future.
7. In entering into this Agreement, the Company represents and warrants to ERWAT that it is familiar with the Code, that it fully understands and appreciates the rights, obligations and recommendations therein contained and agrees to be bound thereby as herein recorded.

**ERW2303/12: THE APPOINTMENT OF A PANEL OF SERVICE PROVIDERS FOR THE CIVIL MAINTENANCE AND CONSTRUCTION INCLUDING THE RENTAL OF PLANT, VEHICLES AND EQUIPMENT FOR VARIOUS ERWAT SITES OVER A FIXED PERIOD ON 'AN AS AND WHEN REQUIRED' BASIS**

**1. INTRODUCTION**

The contract consists of the rental of Plant, Vehicles and Equipment to the various ERWAT Sites, not limited to (ERWAT has 19 Water Care Works) as and when required for a fixed period to perform tasks that include civil engineering services. The Service Provider shall supply the Driver, Operator, Fuel, and items of expense necessary for the rental of Plant, Vehicles and Equipment as and when required.

**2. SCOPE OF WORK**

During its day to day operation ERWAT has activities that requires the rental services, for the listed equipment to be utilised for this include but not limited to these functions:

- Removal of sludge produced onsite to a dedicated area
- Loading of sludge on trucks for the farmers
- Cleaning of some critical process units
- Rehabilitation / repair of critical process units and or pipelines
- Making preventative fire breaks for prevention of veld fires
- Road maintenance and clearing of paths where is necessary
- Prevention of sludge spillages on the embankments of the sludge paddies and unblocking main conveying systems / manholes

These are some of the few core activities that the rental of equipment's will be subjected to, and these will be done as and when required by the plant manager or designated person of that specific Water Care Works, or other department within ERWAT.

**3. GENERAL REQUIREMENTS**

The Service Provider must ensure that the vehicles/ equipment quoted on, in this bid document are fit for service. ERWAT reserves the right to inspect all hired vehicles and equipment arriving on site, to establish the vehicles' or equipment's fitness for service (including road worthiness where applicable). Should it be found that a hired plant, vehicle or equipment is not fit for service, the plant, vehicle or equipment will be returned to the service provider with no cost implication to ERWAT (transport or hire rates).

All vehicles, plant and equipment must comply with provisions of the National Road Traffic Act 93 of 2003, its regulation and its amendments, including but not limited to road worthy certificates, licenses and registrations etc. The service provider must ensure that vehicles supplied have sufficient fuel to cover the area of work for the entire shift. All Plant, Vehicles and Equipment tendered for by the Bidder will be subjected to inspection by ERWAT Representatives prior to the award of this tender.

All quotes and invoices must include the rental of equipment as well as the purpose of, for example Removal of sludge or Loading of sludge

ERWAT reserves the right to monitor activities by requesting vehicle tracking and or before and after pictures

- ERWAT reserve the right to utilizes one or more bidders at the same time.
- ERWAT reserves the right to appoint another service provider to complete the works and penalties

### **3.1 Staff Requirements will be implemented at Service Level Agreement (SLA)**

i) Driver/assistant/operator

All staff supplied by the contractor shall be provided with relevant tools and protective clothing in accordance with the Occupational Health and Safety Act, 1993 (Act No. 85 of 1993). The contract may require manual work where applicable.

ii) Labourers (Unskilled/Skilled)

Bidders wishing to utilise labour for general manual work, employ permanent or contract staff for this project are encouraged to scrutinise the indigent list available at the local authorities in the area. They are also encouraged to work through the Community Liaison Officers appointed on this project.

Labourers supplied by the contractor shall be provided with the necessary tools and protective clothing at the cost of the bidder. The bidders will be responsible to ensure that labourers employed have the required skills to perform their duties.

### **3.2 Special notes**

i) The plant and staff as listed in the bid document is provision only for this project

ii) No plant or labour is to be brought onto site until specifically ordered in writing by ERWAT.

iii) Attend site induction training before any work can be undertaken.

iv) The relevant requirement with regards to the Occupational Health and safety act has to be complied with, with particular reference to the safety file in accordance with the relevant commodity and scope of work items covered by this document taking into consideration that the most current regulation will always take precedence.

v) Request and Receive all the relevant work permits/access control and authorizations have to be obtained before any work can be undertaken after approval of the Safety and Health Plan.

### **3.3 Condition of Bid**

a) ERWAT reserves the right to award any item, or the whole of the contract to one or more successful bidder(s).

b) ERWAT does not bind itself to accept the lowest or any bid and reserves the right to accept the whole or part of any bid.

c) ERWAT will place orders as and when required during the contract period.

- d) Bidders should note that they may be required to work in collaboration with other contractors as and when required.
- e) In the event of an emergency, preferred bidder(s) will be requested in writing to confirm the availability of plant, vehicle or equipment and if no written response is received within 4 working hours from the preferred bidder, it will be assumed that the plant, vehicle or equipment is not available and will be sourced from alternative bidder.
- f) The vehicles provided must comply with the National Road Traffic Act 93 of 2003.
- h) Daily working hours are from 07h00 – 17h00. 1Hour lunch break included in the time period shall not be charged. Maximum of 9Hours per day will be billable.
- i) Vehicle, plant and equipment may be required for after-hours work that will be billable at after-hours rates in the pricing schedule.
- j) Service Providers will only be remunerated for the exact hours worked and in line with the number of plant and equipment allocated. ERWAT will not pay the service provider if the works have been performed without an official purchase order.
- k) Break downs: Should a machine break down during the course of work, ERWAT will only pay for actual hours worked.
- l) Bidders will be required to submit timesheets to the ERWAT site supervisors daily.
- m) Operator's licences / PDP's / Competency Certificates: All operators must have their respective ORIGINAL drivers licences, PDP's and competency certificates on them at all times during operations. Inspections will be done on an ad hoc basis and should an operator fail to provide his licences, a Non-Compliance Report will be filed immediately. The operator will not be allowed to continue with any operations. ERWAT will not pay for any hours for a machine that is working without a legal operator.
- n) Inclement weather shall not be charged.
- o) No restrictions to kilometres travelled should be imposed.
- p) The accommodation for the operator/driver must be provided by the service provider. No driver / operator will be allowed any accommodation, of any form, on Workstations and sites.
- q) Ground Engagement Tooth (G.E.T) shall not be charged.
- r) Insurance of the machines and excess thereof as well as public liability shall be for the account of the Service Provider. Details will be finalised at Service Level Agreement (SLA)
- s) ERWAT reserves the right to instruct the service provider to remove the plant and or equipment if the plant does not perform as the manufacture's specifications or ERWAT's satisfaction.

t) In the event of mechanical breakdown / failure, an official of ERWAT shall notify the service provider of the mechanical failure. The Service Provider will be given a maximum of 6 hours to repair the machine and if necessary, the machine must be replaced. ERWAT will not reimburse for any cost regarding the down-time, should the stand-still be the result of mechanical failure of the hired vehicle or equipment. ERWAT reserves the right to hire in equipment from other service providers if and when the Service Provider can't provide replacement plant or equipment during breakdown periods, and the bidder shall have no claim to such.

u) Transport to and from site for the replacement of machinery shall be for the Service Provider's account.

v) Transportation of Plant, Vehicles and Equipment to various workstations and sites shall be for the Service provider's account and must be with exception to the following heavy plant that require additional transportation plant (for example: low-bed):

- Excavators
- Bulldozers
- Graders
- TLB's and loaders
- Pumps / Generators
- Dredging Equipment
- Tractors and Slashers

All other plant allowed on the road networks by the relevant South African Traffic Rules and Regulations will be transported to these various workstations and site at the Service provider's account.

w) ERWAT will not be liable for any claims and damages to contractor plant, vehicles, equipment or staff and any other third party damages that may occur during the duration of the contract period.

#### **4. PROJECT MANAGEMENT AND CONTRACTING AUTHORITY**

The project will be managed by the Operations Department within Ekurhuleni Water Care Company.

## 5. **REPORTING REQUIREMENTS**

### 5.1. **The service provider shall provide the following reports:**

The reporting table below is a general guideline. Reporting requirements will be finalised as part of Service Level Agreement (SLA)

#### 5.1.1. Table 1: Reporting

<b>Name of report</b>	<b>Content</b>	<b>Due date</b>
Inception report	Analysis of existing situation and work plan for the project	Upon receipt of a formal appointment the bidder to discuss the due date for the inception report with timelines as agreed to in the service level agreement that will carry over to the performance evaluation document for monitoring.
Monthly report	Monthly status report (technical and financial)	As agreed to in the finalised service level agreement and monitored at the monthly performance evaluation sessions.
Closeout and handover report	To be submitted on the last month of year 3.	As agreed to in the finalised service level agreement not exceeding 15 days from date of expiry date of the tender contract.

### 5.2. **Submission and approval of reports**

The inception report, monthly progress report and closeout report must be compiled and submitted to the departmental Project Manager within the set timelines as indicated in the service level agreement and or the performance evaluation document

## 6. **SUBMISSION REQUIREMENTS**

ERWAT will establish a Bid Evaluation Committee (BEC) whose responsibility it is to make recommendations to the Bid Adjudication Committee (BAC). The Bid Evaluation Committee will short list and evaluate the bid document in accordance with the criteria below and make recommendations to the BAC.

- 1) Pre compliance evaluation to be done to determine the eligibility of a bidder to be recommended for the 2<sup>nd</sup> phase of evaluation-qualified bidders goes through for the functionality evaluation. The evaluation criteria is related to previous Company experience.
- 2) Bidders will be scored points for price and specific goals as stipulated in the bid document
- 3) Calculate total Bid evaluation points, to two decimal places.
- 4) Rank Bid offers from the highest number of Bid evaluation points to the lowest.
- 5) Recommend Bidders with the highest number of Bid evaluation points for the award of the contract, unless there are compelling and justifiable reasons not to do so.

### 6.1. **Equipment Requirements**

The equipment listed below is a summary of all the equipment required. ERWAT reserves the right to award the Tender per equipment type with associated accessories or in any other manner in relation to Bids received and requirements

- TLB Digger Loader 120 kW with reach at full height of 1.2 m
- Skid Steer Loader 800kg Lifting capacity
- Skid Steer Loader 1000kg Lifting Capacity
- Front End Loader 1.72 m<sup>3</sup>
- Mini Excavator 8 ton
- Excavator 20 Ton
- Excavator 30 Ton
- Long Reach Excavator 30 ton Reach 12m
- Roller – Vibrating 16 Ton
- Grader Minimum 15000 kg
- Bulldozer 18 Tons
- Tractor with slasher Slasher minimum of 2m cutting width, tractor to suit
- Crane Truck 8 Ton
- Tipper Truck 6 m<sup>3</sup>
- Tipper Truck 10 m<sup>3</sup>
- Side Tipper Truck 45m<sup>3</sup>
- Sloper End Tipper Trucks 30m<sup>3</sup>
- Mobile crane 8 Ton
- Mobile crane 20 Ton
- Mobile crane 35 Ton
- Mobile crane 80 Ton
- Low-bed 20 Ton
- Low-bed 40 Ton
- Water Tanker Truck 6 000 Litres
- Water Tanker Truck 10 000 Litres
- Water Truck (Freshwater) 25 000 Litres
- Suction Truck 6 000 Litres
- Suction Truck 10 000 Litres
- Mobile HP Jetting Unit Tank Capacity 10 000 Litres
- Combination jetting Truck 12 000 Litres
- Combination jetting Truck 10 000 Litres
- Pump Size Discharge Diameter**
- Diesel Pump 100 mm on Double AxleTrailer with suction Hose 100m delivery hose
- Diesel Pump 150 mm on Double AxleTrailer with suction Hose 100m delivery hose
- Diesel Pump 200 mm on Double AxleTrailer with suction Hose 100m delivery hose
- Pump Submersible 230 - 380v 70kw
- Pump Submersible 230 -380v 47kw
- Pump Submersible 230 -380v 22kw
- Pump Submersible 230 – 380v 18 kw
- Dredging Pump Slurry with HD Agitator 34 kW
- Generator with 100m Cable 500kva
- Generator with 100 m cable 250 kva
- Generator with 50m Cable 125kva

## 7. **EVALUATION CRITERIA**

### 7.1 **MANDATORY REQUIREMENTS**

**No functionality scoring is applicable to this tender.**

<b>NO</b>	<b>MANDATORY REQUIREMENTS</b>	<b>SUPPORTING DOCUMENTS</b>
1	Previous Experience	Completion certificates or reference letters minimum of four (4) certificates/letters. For any work relevant to the Scope of this contract.
2	Minimum CIDB Grading 8CE or Higher	CIDB Certificate
3	Financial Capacity	<p>Proof of financial capacity/support from institution accredited by Financial Sector Conduct Authority (FSCA) and/or National Credit Regulator (NCR) as proof of financial capacity. Any of the following will be accepted as proof of financial support for the contract value of R3 000 000.00.</p> <ol style="list-style-type: none"> <li>1. Bank Guarantee</li> <li>2. Letter of credit</li> <li>3. Overdraft facility</li> <li>4. Letter of financial support</li> <li>5. Any other form of funding from financial service provider accredited by FSCA and/or NCR</li> </ol>

Bidders offer will be evaluated based on the Company previous experience. Bidders are required to complete the experience table in full as provided below.

**NB: ERWAT RESERVES THE RIGHT TO VERIFY ALL SUBMITTED DOCUMENTATION**

## PREVIOUS EXPERIENCE

Provide the following information on **relevant** previous experience in the rental of equipment and machinery projects, with a minimum of three (3) related projects. Kindly note that reference letters must be signed by the company on their respective letterhead for whom the service provider has rendered the services, must be contactable, give full details of name, surname, cell phone number, landline, e-mail address and physical business address.

Failure to submit contactable references will render your bid invalid and will be disqualified.

**Failure to submit a minimum of four (4) reference letters or completion certificates will lead to disqualification.**

Kindly note that reference letters or completion certificates must be for individual contracts. More than one reference letter or completion certificate for one specific contract will be seen as one reference irrespective of the number of letters/certificates attached.

[illegible]

## 8. PRICING SCHEDULE

### **PRICING INSTRUCTIONS:**

The successful bidder will be required to submit a quote for the works required prior to being issued an official order and will be limited to the rates as set out herein.

Bidders are required to price for all direct and indirect cost relating to the execution of the contract.

Bidders should note that the quantity stipulated in the table below is indicative and ERWAT reserves the right to increase the quantity as the need arises and does not constitute that an order will be given for such Unit Standard. Thus the rate per unit standard per person will be approved and utilised during this contract.

- a) Wet rate shall be defined as follows: the fuel used, driver/operator, transport to and from site as well as other fees is supplied by the contractor and the cost therefore is **included** in the hire rate.
- b) Dry rate shall be defined as follows: Only driver/operator, transport to and from site as well as other fees supplied by the contractor **excluding** fuel.
- c) Overnight cost of operator must be included in machine hour tariffs and no extra overnight will be paid.
- d) All prices must include VAT.
- e) All prices must be stated in South African Currency.
- f) Prices quoted must be fixed for the period of contract. Any additional price increases must be motivated and may only relate to severe increases in oil prices and/or labour related matters. Proof of any of the aforementioned, must be attached to the motivation.
- g) Suppliers are to note that ERWAT reserves the right to award this Contract to one or more Service Provider based on the number of successful submissions.
- h) The number of bidders that will be appointed and the allocation of activities or items per bidder will be at ERWATs discretion.
- i) The lowest bidding price will not necessarily be accepted and ERWAT reserves the right to determine market related rate to be offered to the successful bidders.
- j) The rates of the highest scoring bidder, as calculated by the formulae for procurement of goods and services subject to market evaluation (market related rate) will be offered to other qualifying bidders that meets the tendered criteria.
- k) ERWAT reserves the right to negotiate with bidders on rates based on market evaluation.
- l) Establishment shall mean that the plant or equipment is delivered and ready for operation as specified in the pricing schedule.

- m) The site establishment cost for machines to be transported by low-bed will be the cost of the low-bed.
- n) Bidders must price for the line items as set out below.
- o) The rate bid for all personnel listed under the pricing schedule of the bid document is to include for all clothing, tools and transportation to and from sites.
- p) The contractor is to note that all insurances (administration, UIF, workman's compensation, public liability etc.) site and equipment's' safety and security and ensure it is factored into the pricing of the bid.
- q) Medical and induction costs shall be for the account of the contractor.

The successful bidder will be required to submit a quote for the works required prior to being issued an official order and will be limited to the rates as set out herein.

Bidders are required to price **WET RATES** including VAT for all direct and indirect costs relating to the execution of the contract.

**All rates must provide for direct and indirect fees including contingencies, travel and labour cost as set out in this Bid.**

Quoted prices shall be **FIXED** and **FIRM** for the first twelve months of the Contract and thereafter subject to CPI, as applicable.

## 1. Pricing per normal weekday working hours

**1.1 Section A:** – Hiring of Plant/Machinery. The capacities quoted below is the minimum requirement. Alternatives with higher capacities will be accepted. Any item listed that cannot be offered by Service Providers based on equipment availability, or market conditions will be removed from Pricing schedule based on consensus from successful bidders.

	Price per unit (Incl. VAT)	
	Description	Rate per hour (R/c)
A.1	<b>Digger Loader (TLB) - 4x4 (120 kW)</b>	
	Wet rate /h	R
A.2	<b>Mini Loader (Bobcat or similar)</b>	
	Wet rate /h	R
A.3	<b>Front End Loader (Min. 1.72 m³)</b>	
	Wet rate /h	R
A.4	<b>Mini Excavator ( 8 ton)</b>	
	Wet rate /h	R
A.5	<b>Excavator ( 20 ton)</b>	
	Wet rate /h	R
A.6	<b>Excavator (30 ton)</b>	
	Wet rate /h	R
A.7	<b>Long Reach Excavator 30 ton( 12m Reach)</b>	
	Wet rate /h	R
A.8	<b>Roller (Vibrating 16 ton)</b>	
	Wet rate /h	R

	Price per unit (Incl. VAT)	
	Description	Rate per hour (R/c)
A.9	Grader (15000 kg)	
	Wet rate /h	R
A.10	Dozers (D6 or similar)	
	Wet rate /h	R
A.11	Tractor with slasher	
	Wet rate /h	R
A.12	Provisional Sum based on ERWAT discretion	
	Provisional Sum	R30 000 000.00

## 1.2 Section B: Hiring of /Machinery Cont.

	Price per unit (Incl. VAT)	
	Description	Rate per hour (R/c)
B.1	<b>Crane Truck (8 ton)</b>	
	Wet rate /h	R
B.2	<b>Tipper Truck (6 m³)</b>	
	Wet rate /h	R
B.3	<b>Tipper Truck (10 m³)</b>	
	Wet rate /h	R
B.4	<b>Side Tipper Trucks (45m3)</b>	
	Wet rate /h	R
B.5	<b>Sloper or Rear End Tipper Trucks (30m3)</b>	
	Wet rate /h	R
B.6	<b>Mobile Crane Hire (8 Ton)</b>	
	Wet rate /h	R
B.7	<b>Mobile Crane Hire (20 Ton)</b>	
	Wet rate /h	R
B.8	<b>Mobile Crane Hire (35 Ton)</b>	
	Wet rate /h	R
B.9	<b>Mobile Crane Hire (80 Ton)</b>	
	Wet rate /h	R
B.10	<b>**Transportation of Plant - Low-bed (Total Laden Mass - 20 Ton) Rate p/km</b>	
	Rate per/km	R
B.11	<b>** Transportation of Plant - Low-bed (Total Laden Mass - 40 Ton) Rate p/km</b>	
	Rate per/km	R
B.12	<b>Water Tanker Trucks (6 000 Litres)</b>	
	Wet rate /h	R
B.13	<b>Water Tanker Trucks (10 000 Litres)</b>	
	Wet rate /h	R
B.14	<b>Water Tanker Truck Potable water delivery (25 000 Litres)</b>	
	Wet rate /h	R
B.15	<b>Suction Truck (6 000 Litres)</b>	
	Wet rate /h	R
B.16	<b>Suction Truck (10 000 Litres)</b>	
	Wet rate /h	R
B.17	<b>Mobile HP Jetting Unit (10 000 Litres)</b>	
	Wet rate /h	R
B.18	<b>Water Tanker Truck Potable water delivery (10 000 Litres)</b>	
	Wet rate /h	R

B.19	<b>Suction Truck (20 000 Litres)</b>	
	Wet rate /h	R
B.20	<b>Combination /Jetting Truck – (12 000 Litres)</b>	
	Wet rate /h	R
B.21	<b>Combination /Jetting Truck – (10 000 Litres)</b>	
	Wet rate /h	R

**\*\* Note:** ERWAT reserve the rights to pay AA rates and will be limited from the bidder's site / offices closest to the area where the services are required.

### 1.3 : Hiring of Equipment – Mobile Diesel Pumps

	Price per unit (Incl. VAT)	
	Description	Rate per hour (R/c)
C.1	<b>Mobile Diesel Pump on a trailer (100mm)</b>	
	Wet rate /h	R
C.2	<b>Mobile Diesel Pump on a trailer (150mm)</b>	
	Wet rate /h	R
C.3	<b>Mobile Diesel Pump on a trailer (200mm)</b>	
	Wet rate /h	R
C.4	<b>Pump Submersible 70 kw</b>	
	Wet rate /h	R
C.5	<b>Pump Submersible 47kw</b>	
	Wet rate /h	R
C.6	<b>Pump Submersible 22kw</b>	
	Wet rate /h	R
C.7	<b>Pump Submersible 18kw</b>	
	Wet rate /h	R
C.8	<b>Overhead 6 inch or 150mm Diesel Pump</b>	
	Wet rate /h	R
C.9	<b>Generator with Cable 500kva</b>	
	Wet rate /h	R
C.10	<b>Generator with Cable 250kva</b>	
	Wet rate /h	R
C.11	<b>Generator with cable 125kva</b>	
	Wet rate /h	R

**\*\*\* Note:** Bidders should note that pumps will be required to run for uninterrupted periods and therefore must be provided with suction and delivery hoses suited for each task.

## 2. Pricing after hours and weekend working hours

### 2.1 Section A: – Hiring of Plant/Machinery

	Price per unit (Incl. VAT)	
	Description	Rate per hour (R/c)
A.1	<b>Digger Loader (TLB) - 4x4 (120 kW)</b>	
	Wet rate /h	R
A.2	<b>Mini Loader (Bobcat or similar)</b>	
	Wet rate /h	R
A.3	<b>Front End Loader (Min. 1.72 m³)</b>	
	Wet rate /h	R
A.4	<b>Mini Excavator ( 8 ton)</b>	
	Wet rate /h	R
A.5	<b>Excavator ( 20 ton)</b>	
	Wet rate /h	R
A.6	<b>Excavator (30 ton)</b>	
	Wet rate /h	R
A.7	<b>Long Reach Excavator 30 ton( 12m Reach)</b>	
	Wet rate /h	R
A.8	<b>Roller (Vibrating 16 ton)</b>	
	Wet rate /h	R
A.9	<b>Grader (15000 kg)</b>	
	Wet rate /h	R
A.10	<b>Dozers (D6 or similar)</b>	
	Wet rate /h	R
A.11	<b>Tractor with slasher</b>	
	Wet rate /h	R

## 2.1 Section B: Hiring of /Machinery Cont.

	Price per unit (Incl. VAT)	
	Description	Rate per hour (R/c)
B.1	<b>Crane Truck (8 ton)</b>	
	Wet rate /h	R
B.2	<b>Tipper Truck (6 m³)</b>	
	Wet rate /h	R
B.3	<b>Tipper Truck (10 m³)</b>	
	Wet rate /h	R
B.4	<b>Side Tipper Trucks (45m3)</b>	
	Wet rate /h	R
B.5	<b>Sloper or Rear End Tipper Trucks (30m3)</b>	
	Wet rate /h	R
B.6	<b>Mobile Crane Hire (8 Ton)</b>	
	Wet rate /h	R
B.7	<b>Mobile Crane Hire (20 Ton)</b>	
	Wet rate /h	R
B.8	<b>Mobile Crane Hire (35 Ton)</b>	
	Wet rate /h	R
B.9	<b>Mobile Crane Hire (80 Ton)</b>	
	Wet rate /h	R
B.10	<b>**Transportation of Plant - Low-bed (Total Laden Mass - 20 Ton) Rate p/km</b>	
	Rate per/km	R
B.11	<b>** Transportation of Plant - Low-bed (Total Laden Mass - 40 Ton) Rate p/km</b>	
	Rate per/km	R
B.12	<b>Water Tanker Trucks (6 000 Litres)</b>	
	Wet rate /h	R
B.13	<b>Water Tanker Trucks (10 000 Litres)</b>	
	Wet rate /h	R
B.14	<b>Water Tanker Truck Potable water delivery (25 000 Litres)</b>	
	Wet rate /h	R
B.15	<b>Suction Truck (6 000 Litres)</b>	
	Wet rate /h	R
B.16	<b>Suction Truck (10 000 Litres)</b>	
	Wet rate /h	R
B.17	<b>Mobile HP Jetting Unit (10 000 Litres)</b>	
	Wet rate /h	R
B.18	<b>Water Tanker Truck Potable water delivery (10 000 Litres)</b>	
	Wet rate /h	R

B.19	<b>Suction Truck (20 000 Litres)</b>	
	Wet rate /h	R
B.20	<b>Combination /Jetting Truck – (12 000 Litres)</b>	
	Wet rate /h	R
B.21	<b>Combination /Jetting Truck – (10 000 Litres)</b>	
	Wet rate /h	R

**\*\* Note:** ERWAT reserve the rights to pay AA rates and will be limited from the bidder's site / offices closest to the area where the services are required.

## 2.2 : Hiring of Equipment – Mobile Diesel Pumps

	Price per unit (Incl. VAT)	
	Description	Rate per hour (R/c)
C.1	<b>Mobile Diesel Pump on a trailer (100mm)</b>	
	Wet rate /h	R
C.2	<b>Mobile Diesel Pump on a trailer (150mm)</b>	
	Wet rate /h	R
C.3	<b>Mobile Diesel Pump on a trailer (200mm)</b>	
	Wet rate /h	R
C.4	<b>Pump Submersible 70 kw</b>	
	Wet rate /h	R
C.5	<b>Pump Submersible 47kw</b>	
	Wet rate /h	R
C.6	<b>Pump Submersible 22kw</b>	
	Wet rate /h	R
C.7	<b>Pump Submersible 18kw</b>	
	Wet rate /h	R
C.8	<b>Overhead 6 inch or 150mm Diesel Pump</b>	
	Wet rate /h	R
C.9	<b>Generator with Cable 500kva</b>	
	Wet rate /h	R
C.10	<b>Generator with Cable 250kva</b>	
	Wet rate /h	R
C.11	<b>Generator with cable 125kva</b>	
	Wet rate /h	R

**\*\*\* Note:** Bidders should note that pumps will be required to run for uninterrupted periods and therefore must be provided with suction and delivery hoses suited for each task.

I, the undersigned, the authorised designated signatory, undertake to carry out the works in accordance with the conditions of contract, the specifications for the tender sum as indicated and within the time for completion as specified in the Contract.

## **8.1 ALTERNATIVE OFFERS**

If a bidder wishes to submit an alternative for any of the items in the schedule of quantities, the bidder must indicate on the pricing schedule and complete the form included in the bidding documents.

No alternative bid will be considered, unless an unqualified bid, strictly on the basis of the bid documents, is also submitted.

If subsequently required, the bidder shall submit fully detailed drawings and calculations of the alternative bid in the form set out by the Engineer, and the cost of checking calculations and drawings shall be for the bidder's account, if his bid is accepted.

Only ISO/SANS/SABS or items registered with the relevant regulatory authority will be considered.

Please note that ERWAT reserves the right to accept or not accept the alternative offered.

### **C3.5. INTRODUCTION AND BACKGROUND**

#### **C3.5.1.1 BACKGROUND TO THE HEALTH AND SAFETY SPECIFICATION**

The Construction Regulations (July 2003) place the onus on the Client to prepare a preconstruction Health and Safety specification, highlighting all risks not successfully eliminated during design setting standards for Health and Safety during construction phase.

#### **C3.5.1.2 PURPOSE OF THE HEALTH AND SAFETY SPECIFICATION**

To assist in achieving compliance with the Occupational Health and Safety Act 85/1993 and the promulgated Construction Regulations (July 2003) in order to reduce incidents and injuries. These specifications shall act as the basis for the drafting of the construction phase Health and Safety plan by the Contractor.

The specification sets out the requirements to be followed by the Principal Contractor and their Contractors so that the Health and Safety of all persons potentially at risk may receive the same priority as other facets of the project e.g. Cost, programmed, environment, quality etc.

### **C3.5.2 HEALTH AND SAFETY SPECIFICATION**

#### **C3.5.2.1 SCOPE**

This specification covers the requirements for eliminating and mitigating incidents and injuries on the **ERW202303/TNDR-012: THE APPOINTMENT OF A PANEL OF SERVICE PROVIDERS FOR THE CIVIL MAINTENANCE AND CONSTRUCTION INCLUDING THE RENTAL OF PLANT, VEHICLES AND EQUIPMENT FOR VARIOUS ERWAT SITES OVER A FIXED PERIOD ON 'AN AS AND WHEN REQUIRED' BASIS**

The scope also addresses legal compliance, hazard identification and risk assessment, risk control and promoting a Health and Safety culture amongst those working on the project. The specification also makes provision for the protection of those persons other than employees.

##### **C3.5.2.1.2 Provision for Health & Safety Cost**

The Principal Contractor must make provision for the cost of Health & Safety Measures during the construction process as required by the Construction Regulation 4(h).

#### **C3.5.2.2 INTERPRETATIONS**

##### **C3.5.2.2.1 APPLICATION**

This specification is a compliance document drawn up in terms of the South African legislation and is therefore binding. It must be read in conjunction with relevant legislation as noted previously.

### **C3.5.2.2.2 DEFINITIONS**

The definitions as listed in the Occupational Health and Safety Act 85/1993 and Construction Regulations (July 2003) shall apply.

### **C3.5.2.3 MINIMUM ADMINISTRATIVE REQUIREMENTS**

#### **C3.5.2.3.1 NOTIFICATION OF INTENTION TO COMMENCE CONSTRUCTION WORK**

The Principal Contractor shall notify the provincial Director of the Department of Labour in writing that construction work commences.

#### **C3.5.2.3.2 ASSIGNMENT OF CONTRACTOR'S RESPONSIBLE PERSONS TO SUPERVISE HEALTH AND SAFETY ON SITE**

The Principal Contractor shall submit supervisory appointments as well as any relevant Appointments in writing (as stipulated by the OHSA and Construction Regulations), prior to commencement of work. Proof of competency must be included. See annexure B.

#### **C3.5.2.3.3 COMPETENCY FOR CONTRACTOR'S APPOINTED COMPETENT PERSON**

The Principal Contractors' competent persons for the various risk management portfolios shall fulfil the criteria as stipulated under the definition of Competent in accordance with the Construction Regulations (July 2003). Proof of competence for the various appointments must be included.

#### **C3.4.5.3.4 COMPENSATION OF OCCUPATIONAL INJURIES AND DISEASES ACT 130 OF 1993 (COIDA)**

The Principal Contractor shall submit a letter of good standing from their Compensation Insurer-FEM or Compensation Commissioner to the Client's Representative as proof of registration. Contractors shall submit proof of registration to their Contractor before they commence work on site.

#### **C3.5.2.3.5 OCCUPATIONAL HEALTH AND SAFETY POLICY**

The Contractor and their Contractors shall submit a Health and Safety policy signed by their Chief Executive Officer. The Policy must outline objectives and how they will be achieved and implemented by the Company / Contractor.

#### **C3.5.2.3.6 HEALTH AND SAFETY ORGANOGRAM**

The Principal Contractor and their Contractors shall submit an organogram, outlining the Health and Safety site Management Structure including the relevant appointments / competent persons. In cases where appointments have not been made, the organogram shall reflect the intended positions. The organogram shall be updated when there are any changes in the site Management Structure.

#### **C3.5.2.3.7 PRELIMINARY HAZARD IDENTIFICATION AND RISK ASSESSMENT AND PROGRESS HAZARD IDENTIFICATION AND RISK ASSESSMENT**

- Roof Work
- Mobile Cranes Management System
- Mechanical
- Working at heights, as per CR8 – Fall Protection Plan, Scaffolding Management
  - Person falling
  - Material falling
  - Protection of decking edges, finished floor slab edges, stairways, floor penetrations, lift shafts, any other openings and areas from where persons may fall.
- Excavations
  - Collapse of Walls
  - People/Equipment falling in Excavations
  - Shoring
  - Underground services
  - Drainage
  - Pipe-Jacking operations
- Confined Space entry
- Formwork and Support Work
  - Casting of Concrete
- Manual and Mechanical Handling o Lifting and placement of pipes o Overhead works
- Noise Control
- Dust Control

Principal Contractor to ensure that these risk assessments as well as other risks identified by them are updated monthly or as the risk change and communicated to all relevant parties. CR 7(4)

#### **C3.5.2.3.8 HEALTH AND SAFETY REPRESENTATIVE(S)**

The Principal Contractor and their Contractors shall ensure that Health and Safety Representative(s) are appointed under consultation and trained to carry out their functions. The appointment must be in writing.

The Health and Safety Representative shall carry out regular inspections, keep records and report all findings to the Responsible Person forthwith and at Health and Safety meetings

#### **C3.5.2.3.9 HEALTH AND SAFETY COMMITTEES**

Principal Contractor shall organize monthly Health & Safety meetings. Minutes and records shall be kept. Principal Contractors Health & Safety representative and responsible person shall

Contractor

attend this meeting.

### **C3.5.2.3.10 HEALTH AND SAFETY TRAINING**

#### **C3.5.2.3.10.1 Induction**

Principal Contractor shall ensure that all undergo site-specific induction presented by a competent person and proof of it too.

#### **C3.5.2.3.10.2 Awareness**

The Principal Contractor shall ensure that, on site, periodic toolbox talks take place at **least once per week**. These talks should deal with risks relevant to the construction work at hand. A record of attendance shall be kept in the Health and Safety file. All Principal Contractor have to comply with this minimum requirement.

#### **C3.5.2.3.10.3 Competency**

All competent persons shall have the knowledge, experience, training and qualifications specific to the work they have been appointed to supervise, control, and carry out. This will have to be assessed on a regular basis e.g.

Periodic audits by the Client's Health & Safety Agent, progress meetings, etc. The Contractor is responsible to ensure that competent Contractors are appointed to carry out construction work.

### **C3.5.2.3.11 GENERAL RECORD KEEPING**

The Principal Contractor and their Contractors shall keep and maintain Health and Safety records to demonstrate compliance with this Specification, with the OHS Act 85/1993, and with the Construction Regulations (July 2003). The Principal Contractor shall ensure that all records of incidents / accidents, emergency procedures training, inspections, audits, etc. are kept in a Health and Safety file held in the site office. The Principal Contractor must ensure that every sub-Contractor keeps its own Health and Safety file, maintains the file and make it available on request (The file must include the Sub-Contractor's health and safety plan). These records are crucial for inclusion in the Principal Contractors' consolidated health and safety file for handover to the Client on completion of construction work.

### **C3.5.2.3.12 HEALTH AND SAFETY AUDITS, MONITORING AND REPORTING**

***The Client's Health & Safety Agent shall conduct monthly Health and Safety audits of the work. Operations including a full audit of physical site activities as well as an audit of the administration Health and Safety. The Principal Contractor is obligated to conduct similar audits on their Contractors.***

Detailed reports of the audit findings and results shall be reported on at all levels of project

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

management meetings / forums. Copies of the Client audit reports shall be kept in the Primary Project Health and Safety file while the Principal Contractor audit reports shall be kept in their file, a copy being forwarded to the Client. Principal Contractor has to audit their Contractors and keep records of these audits in their Health and Safety files, available on request.

#### **C3.5.2.3.13 EMERGENCY PROCEDURES**

The Principal Contractor shall compile a comprehensive Evacuation Plan with assemble point and contact details in the case of any emergency supplied by the Client's Health & Safety Agent.

#### **C3.5.2.3.14 FIRST AID BOXES AND FIRST AID EQUIPMENT**

The Principal Contractor and their Contractors shall appoint in writing First Aider(s). The appointed First Aider(s) are to be sent for accredited first aid training. Valid certificates are to be kept on site. All Principal Contractor with more than 5 employees shall supply their own first aid box. Principal Contractor with more than 10 employees shall have trained, certified first aider on site at all times & First aid Box adequately stocked at all times.

#### **C3.5.2.3.15 ACCIDENT / INCIDENT REPORTING AND INVESTIGATION**

Injuries are to be categorized into first aid, medical, disabling and fatal. The Principal Contractor must stipulate in its construction phase Health and Safety plan how it will handle each of these categories. When reporting injuries to the Client, these categories shall be used. All contractors must investigate and report on the 4 categories of injuries to the Principal Contractor at least monthly. Contractors must investigate injuries and accidents involving their employees within seven days of the incident in the form on Annexure1 (General Administrative Regulations) and forward a copy on the investigation report to the principal contractor forthwith. **All incidents reportable in terms of the provision of Section 24 of the OHS Act 1993 must be reported to the local Dept. of Labour in the prescribed manner.**

The Principal Contractor must report all injuries to the Client in the form of a spreadsheet, which includes all contractor injuries/incidents and man-hours worked for the month as well as the cumulative total. This report must be done on a monthly basis and must form part of the Principal Contractor's progress report.

#### **C3.5.2.3.16 HAZARDS AND POTENTIAL SITUATIONS**

The Principal Contractor shall immediately notify the Client's Health & Safety Agent of any hazardous or potentially hazardous situations that may arise during the performance of construction activities.

#### **C3.5.2.3.17 PERSONAL PROTECTIVE EQUIPMENT (PPE) AND CLOTHING**

The Principal Contractor shall ensure that all workers are issued and wear hard hats, protective footwear and overalls. The Principal Contractor and their Contractors shall make provision and keep adequate quantities of SABS or SANS approved PPE on site at all times.

---

Contractor

### C3.5.2.3.18 OCCUPATIONAL HEALTH AND SAFETY SIGNAGE

The Principal Contractor shall provide adequate on-site OHS signage. Including but not limited to: "no unauthorized entry", "report to site office", "site office", and "hardhat area". Signage shall be posted up at all entrances to site as well as on site in strategic locations e.g. Access routes, entrances to structures and buildings, scaffolding and other potential risk areas / operations. All Contractors to adhere to it.

### C3.5.2.3.19 CONTRACTORS

The Principal Contractor shall ensure that all Contractors appointed by them comply with this Specification, the OHS Act 85/1993, and Construction Regulation (July 2003).

The Principal Contractor may only appoint a sub-contractor after approving the sub-contractor's health & safety plan. The Principal Contractor must audit each of its Contractors on a monthly basis, with audit reports filed in the health & safety file on site. The audit must include an administrative assessment as well as a physical inspection of the contractor's health & safety system.

The Principal Contractor must stop any Contractor from carrying out construction work that is not in accordance with the Principal Contractor's or Contractor's health & safety plan or if there is an immediate threat to the health and safety of persons.

The Principal contractor shall take all reasonable steps necessary to ensure co- operation between all Contractors to enable each of those Contractors to comply with the provisions of these regulations;

The Principal Contractor must ensure that their Contractor is registered and in good standing with a recognized compensation fund or with a licensed compensation insurer prior to work commencing on site;

The Principal Contractor must ensure that potential Contractors submitting tenders have made provision for the cost of health and safety measures during the construction process; The Principal Contractor shall discuss and negotiate with their Contractor the contents of the health and safety Plan and shall finally approve that plan for implementation;

### C3.5.2.3.20 PENALTIES

Penalties may be imposed for ongoing non-compliance to the provisions of the Client's Health and Safety specification and Principal Contractors' health & safety plans. The penalty procedure shall consist of a written warning with a compliance time frame. **Failure to comply within the time frame stipulated would result in a R1000 penalty per non-compliance item per day that the non- compliance persists.**

Witness 1

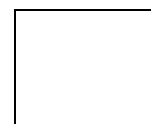

Witness 2

#### **C3.5.2.3.21 A HEALTH AND SAFETY OFFICER CR 6.6**

**The Principal Contractor shall provide a full-time safety officer on site and proof of their competency to be attached to their appointment.**

#### **C3.5.2.4 PHYSICAL REQUIREMENTS**

##### **C3.5.2.4.1 CIVIL WORK**

Principal Contractor to ensure that the Contractor complies with Construction regulation 21 and that the following is undertaken during civil work:

- A competent site supervisor to be on site at all times.
- Plant and equipment inspected daily and registers kept.
- All operators of plant and vehicles: trained, competent and physically and psychologically fit. Certificates to be put in their Health & Safety File.
- Workers that are working close to the traffic to be visible and are to wear reflective vests.
- Adequate safety signage to be posted ahead of any work area in the road.
- All signage, including delineators to be maintained and kept clean at all times.
- The required PPE must be worn at all times (Hard hats, safety shoes, overalls, etc.)
- Risk assessments to be conducted on all high-risk activities.
- Speed reduction road signs to be posted.
- Dust control practices used to limit dust generation.

##### **Laying of pipes / Backfilling**

- A competent site person to supervise lifting operations at all times.
- No employee to stand under any suspended loads.
- Loads must not be slewed over personnel, plant, site huts or property.
- All lifting equipment and accessories must be marked with the Safe Working Load.
- Slings must not be placed on sharp edges.
- Workers to wear proper PPE at all times.
- Work to be stopped when weather conditions prevent safe operations during trenching work or lying of pipes.
- Everyone to stand clear of any area being backfilled by mobile plant.

##### **C3.5.2.4.2 EXCAVATIONS, SHORING, DEWATERING OR DRAINAGE**

The Principal Contractor and any relevant Contractors shall make provision at tendering stage for shoring, dewatering or drainage of any excavations as per this specification.

The Principal Contractor shall make sure that:

- The excavations are inspected before every shift, after any blasting, after an unexpected fall of ground, after any substantial damage to the shoring and after rain, records kept

Contractor

thereof.

- Safe work procedures have been communicated to the workers,
- The safe work procedures are enforced and maintained by the Contractor's Responsible Persons at all times,
- The requirements as per section 11 of the Construction Regulations are adhered to.
- Where pipe-jacking activities are taking place safe work procedures/method statements to be submitted to Client's Health & Safety Agent prior to these activities.

Method statement to be developed where shoring will be done, especially near public roads and also where explosives will be / are used.

#### **C3.5.2.4.3 CONFINED SPACE ENTRY**

The Principal Contractor to prepare a confined space procedure in line with General Safety Regulation (5) OHSA Act

#### **C3.5.2.4.4 EXISTING STRUCTURES**

Any adjacent structures that may be affected by work must be considered in the planning process. Precautionary measures must be detailed and applied to prevent damage, uncontrolled collapse of existing structures and/or loss to property and persons during the entire construction phase.

#### **C3.5.2.4.5 EDGE PROTECTION AND PENETRATIONS**

The Principal Contractor must ensure that all exposed edges and openings are guarded and demarcated at all times until permanent protection has been erected. The Principal Contractors' risk assessment must include these items finished floor slab edges, floor penetrations, and all other openings and areas where a person may fall.

#### **C3.5.2.4.6 HAZARDOUS CHEMICAL SUBSTANCES (HCS)**

The Principal Contractor working with Hazardous chemical substances to obtain copies of all the (MSDS) Material Safety Data Sheets and this is to be kept on site and a copy to be forwarded to Client's Health & Safety Agent.

#### **C3.5.2.4.7 STACKING OF MATERIALS**

The Principal Contractor shall ensure that there are sufficient appointed stacking supervisors and that all materials and equipment is stacked and stored safely. Double handling of material should be avoided and for this purpose, pallets and other stacking options should be used.

Contractor

Witness 1

### **C3.5.2.5 PLANT AND MACHINERY**

#### **C3.5.2.5.1 CONSTRUCTION PLANT**

The Principal Contractor shall ensure that all such plant complies with the Requirements of the OHS Act 85/1993 and Construction Regulations (July 2003). The Principal Contractor shall inspect and keep records of inspections of construction plants used on site. Only authorized / competent persons are to use machinery under proper supervision. Appropriate PPE must be provided and maintained at all times.

#### **C3.5.2.5.2 VESSELS UNDER PRESSURE (VUP) AND GAS BOTTLES**

The Principal Contractor shall comply with the Vessels under Pressure Regulations, including:

Providing competency and awareness training to the operators, Providing PPE, Inspect Equipment regularly and keep record of inspections, Provide appropriate firefighting equipment (Fire Extinguishers) on hand.

#### **C3.5.2.5.3 FIRE EXTINGUISHERS AND FIRE FIGHTING EQUIPMENT**

The Principal Contractor shall provide adequate, regularly serviced firefighting equipment located at strategic points on site, specific to the classes of fire likely to occur. The appropriate notices and signs must be posted as required.

#### **C3.5.2.5.4 HIRED PLANT AND MACHINERY**

The Principal Contractor shall ensure that any hired plant and machinery used on site is safe for use. The necessary requirements as stipulated by the OHS Act 85/1993 and Construction Regulations (July 2003) shall apply. The Contractor shall ensure that operators hired with machinery are competent and that certificates are kept on site in the Health and Safety file. All relevant Contractors must ensure the same.

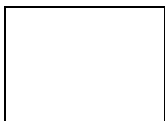

#### **C3.5.2.5.5 FORMWORK AND SUPPORT WORK FOR STRUCTURES**

The Principal Contractor shall ensure that the provisions of section 10 of Construction Regulations (July 2003) are adhered to. These provisions must include but not be limited to ensuring that all equipment used is examined for suitability before use, that all formwork and support work is inspected by a competent person immediately before, during and after placement of concrete or any other imposed load and thereafter on a daily basis until the formwork and support work has been removed. Records of all inspections must be kept in a register on site.

#### **C3.5.2.5.6 GENERAL MACHINERY**

The Principal Contractor shall ensure compliance with the Driven Machinery Regulations, which include inspecting machinery regularly, appointing a competent person to inspect and ensure maintenance, issuing PPE, and training those who operate the machinery.

### C3.5.2.5.7 HIGH VOLTAGE & ELECTRICAL INSTALLATIONS

If high voltage electrical lines are present on the site perimeter, the Contractor must be aware of the location of them and are to demarcate its positions.

These demarcations must be maintained throughout the duration of the construction work. The minimum safety clearances as per Electrical Machinery Regulation 15 must be adhered to. **All installation must comply with SANS 10142 & the regulations of the OHS Act 85/1993 and Construction Regulation 22.**

All temporary electrical installations must be inspected at least weekly.

### C3.5.2.5.8 PORTABLE ELECTRICAL TOOLS AND EXPLOSIVE POWERED TOOLS

The Principal Contractor shall ensure that use and storage of all explosive powered tools and portable electrical tools are in compliance with relevant legislation.

The Contractor shall ensure that all electrical tools, electrical distribution boards, extension leads, and plugs are kept in safe working order. Regular inspections and toolbox talks must be conducted to make workers aware of the dangers and the control measures that are to be implemented e.g. Personal protection equipment, guards, etc.

A competent person to undertake routine inspections and records are to be kept on file. Only authorized trained persons are to use the tools, the safe work procedures to apply. Awareness training to be carried out, compliance enforced at all times, and PPE are provided and maintained,

### C3.5.2.5.9 WELDING EQUIPMENT

- Only authorised / trained persons to use the equipment.
- The operators are to wear correct PPE - eye/ face/foot/body/respirator.
- Flashback arrestors are to be fitted on cylinders and gauges when using gas welding equipment. Fire prevention methods to be applied.
- Where electric arc welders are used, equipment only to be used in a dry area, protected from wetness.

### C3.5.2.5.10 PUBLIC AND SITE VISITOR HEALTH AND SAFETY

Both the Client and the Principal Contractor have a duty in terms of the OHS Act 85/1993 to do all that is reasonably practicable to prevent members of the public and site visitors from being affected by the construction activities. Site visitors must be briefed on the hazards and risks they may be exposed to and what measures are in place or should be taken to control these hazards and risks. A record of these inductions must be kept on site in accordance with the Construction Regulations. Principal Contractor to ensure that no unauthorized personal enter the construction area.

Method statements are to be drafted on traffic management on site, including work near the

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

public.

### **C3.5.2.5.11 NIGHT WORK**

Adequate lighting to be provided where required. Personnel should not work alone at night.

### **C3.5.2.6 OCCUPATIONAL HEALTH**

#### **C3.5.2.6.1 OCCUPATIONAL HYGIENE**

Exposure of workers to occupational health hazards and risks is very common in any work environment, especially in construction. Occupational exposure is a major problem and Principal Contractor must ensure that proper health and hygiene measures are put in place to prevent exposure to these hazards.

The Risk to be looked at includes:

#### Ventilation

Adequate ventilation / extraction / exhausting in hazardous areas e.g. chemicals / adhesives / welding / petrol or diesel/ motors running and in confined spaces / basements.

#### Noise

Tasks identified where noise exceeds 85 dBa. All reasonable steps are to be taken to reduce noise levels. Hearing protection is to be used where noise levels cannot be reduced to below 85 dBa.

#### Dust

Principal Contractor to ensure that employees working with grinders, saws & jackhammers, etc. are issued with dust masks and dust exposure to be minimized at all times.

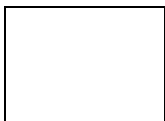

#### **C3.5.2.6.2 WELFARE FACILITIES**

The Principal Contractor will provide ablution facilities for all on site, including changing facilities & hand washing facilities. Safe and adequate facilities will be provided. Waste bins must be strategically placed and emptied regularly. Safe and clean storage areas must be provided for workers to store personal belongings and personal protective equipment.

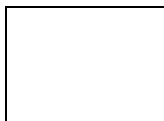

#### **C3.5.2.6.3 ALCOHOL AND OTHER DRUGS**

The Principal Contractor is to ensure that no alcohol and other drugs are allowed on site. No person may be under the influence of alcohol or any other drugs while on the construction site. Any person on prescription drugs must inform his/her superior, who shall in turn report this to the Contractor forthwith. Any person suffering from any illness / condition that may have a negative effect on his/her safety performance must report this to his/her superior, who shall in turn report this to the Principal Contractor forthwith.

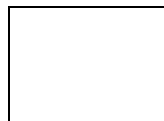

---

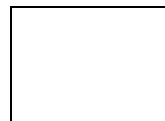

Contractor

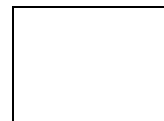

Witness 1

Witness 2

Employer

Witness 1

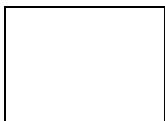

Witness 2

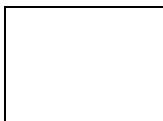

Any person suspected of being under the influence of alcohol or other drugs must be sent home immediately, to report back the next day for a preliminary inquiry. The Contractor concerned must follow a full disciplinary procedure and a copy of the disciplinary action must be forwarded to the Principal Contractor for his records.

## **HEALTH AND SAFETY SPECIFICATIONS (HSS)**

### **PROJECT NO: ERW2303/12**

#### **THE APPOINTMENT OF A PANEL OF SERVICE PROVIDERS FOR THE CIVIL MAINTENANCE AND CONSTRUCTION INCLUDING THE RENTAL OF PLANT, VEHICLES AND EQUIPMENT FOR VARIOUS ERWAT SITES OVER A FIXED PERIOD ON 'AN AS AND WHEN REQUIRED' BASIS**

#### **Annexure B**

The Principal Contractor shall make the following appointments according to the initial risk assessment: (further appointments could become necessary as the project progresses). Contractors shall make the relevant appointments as per their operations. The Client reserves the right to insist on any appointment as determined by its risk assessment of the Contractor concerned.

<b>APPOINTMENT</b>	<b>OHS REFERENCE</b>	<b>REQUIREMENT</b>
CEO Assignee	Section 16(2)	A competent person to assume the overall H & S responsibility - Contractor's Responsible Person
Construction Work Supervisor	CR 6.1	A competent person to supervise and be responsible for Health and Safety related issues on site
Subordinate Construction Work Supervisors	CR 6.2	A competent person to assist with the daily supervision of construction / building work. The person(s) assist the Construction Work Supervisor
Health and Safety Representative(s)	Section 17	A competent person(s) to assist with identifying risks, attend H & S meetings, conduct inspections, assist with investigations, etc.
Incident Investigator	GAR 8	A competent person to investigate incidents / accidents on site, this could either be: <ul style="list-style-type: none"> <li>* The 6.1 or 6.2 Person</li> <li>* H &amp; S Representative</li> <li>* Member of the H &amp; S Committee</li> <li>* H &amp; S officer</li> </ul>
Risk Assessment Co-ordinator	CR 7	A competent person to co-ordinate all assessments on behalf of the Principle Contractor. The same applies to Contractors.
Fall protection plan co-ordinator	CR 8	A competent person to prepare and amend the fall protection plan
First Aiders	GSR 3	A qualified person to address all on site first aid cases
Lifting machine and equipment Inspector	DMR 18	A competent person to inspect lifting machines and equipment
Lifting tackle Inspector	DMR 18	A competent person to inspect lifting tackles
Scaffolding Inspector	SANS 10085-1:2004	A competent person to inspect scaffolding before use and every time after bad weather, etc.

### **C3.6 ENVIRONMENTAL MANAGEMENT DURING CONSTRUCTION**

#### **C3.6.1 INTRODUCTION**

A comprehensive Environmental Scoping Report was prepared as part of the environmental and social assessment of the preceded project. Included in the report is an Environmental Management Plan (EMP) and the purpose of this Particular Specification is to make the Contractor aware of his obligations in terms of the EMP during construction and to afford him the opportunity to insert rates and prices in the Schedule of Quantities to cover these obligations.

Sub-Contractors and their employees must comply with all the requirements of this specification. Absence of specific reference to any sub-contractor in any specification does not imply that the sub-contractor is not bound by this specification.

The Contractor must arrange for all his employees and those of his sub- contractors to be informed of this specification before the commencement of construction to ensure:

- a.) basic understanding of the key environmental features of the work site and environments, and
- b.) familiarity with the requirements of this document.

#### **C3.6.2 MONITORING AND ASSESSMENT OF COMPLIANCE**

The environmental management performance of the Contractor (including his subcontractors and staff) will be reviewed on a regular basis by the Employer's ECO. The Contractor will be deemed not to have complied with the EMP if:

- a.) There is evidence of negligence or recklessness resulting in the contravention of any of the clauses, both within and outside the boundaries of the construction site;
- b.) The Contractor fails to comply with corrective or other instructions within a time specified by the Engineer;
- c.) The Contractor fails to respond adequately in terms of the contract, to complaints from the public.

The Contractor will be given a period of 2 weeks after the commencement date of the contract, before compliance is enforced.

Via these environmental specifications the Contractor has been made aware of what actions are required of him and/or his subcontractors. Certain do's and don'ts have been given and onus for these controls rests with the Contractor as he is the only person capable of controlling these aspects and a fine/reward system will be implemented to encourage compliance.

Compliance to the EMP will be reported by the ECO in the form of a monthly Environmental

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

Compliance Report which will include all transgressions of the EMP and the environmental specification and rate them in order of significance. The Environmental Compliance Report will be forwarded to the Engineer, the Employer and GDACE on a monthly basis.

A percentage point will be given based on a questionnaire which is attached to the Report. Any percentage compliance above 80% will be considered to be within acceptable limits. If the Contractor has not complied with any of the clauses of the EMP, or the score in the monthly environmental audit drops to below 80% compliance, the ECO will advise the Engineer who shall order the Contractor in terms of the contract to remedy the deficiencies. Failure on the part of the Contractor to carry out such order shall be dealt with in terms of the contract.

Should compliance drop below 60% the ECO shall immediately advise the Engineer who shall have the right in terms of the contract to order in writing the suspension of the Works.

### **C3.6.3 COMPLIANCE WITH SANS 1200**

All environmental clauses stated in the SANS 1200 "Standard Specification for Civil Engineering Construction" as amended in this document shall be adhered to by the Contractor. Where the EMP is in conflict with the Standard Specification, the EMP shall take precedence.

### **C3.6.4 SITE MANAGEMENT**

#### **C3.6.4.1 General**

The Contractor shall draw up a plan of all parts of the construction site, showing the layout of site establishment, stockpiles, planned access and circulation routes, etc. to depict the scope of his planned operations. The plan shall be submitted to the ECO for comment and approval by the Engineer.

The Works area will be indicated on the layout plan and shall never exceed the boundaries of the site at any given location during the construction period.

Every precaution shall be taken, in accordance with this specification, to prevent pollution of air, soil, ground, and surface water as a result of construction or associated activities.

All equipment must be inspected regularly for oil or fuel leaks before it is operated. Leakages must be repaired on mobile equipment or containment trays placed underneath immobile equipment until such leakage has been repaired.

#### **C3.6.4.2 Housekeeping**

The Contractor shall ensure that his working areas are kept clean and tidy at all times. The ECO shall inspect these areas on a regular basis.

#### **C3.6.4.3 Works area**

Routes for temporary access and haul roads shall be located within the approved Works

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

area and vehicle movement shall be confined to these roads. Movement of vehicles outside the Works area shall not be permitted without authorisation from the Engineer, after consultation with the ECO.

All construction activities shall be restricted to working areas designated on the drawings and/or demarcated and approved by the Engineer. Materials, including spoil, shall only be stockpiled in the Works area.

#### **C3.6.4.4 Fire risk and burning**

Burning of vegetation including tree trunks and stumps cut during site clearing and establishment shall not be permitted.

The Contractor shall ensure that the risk of fire at any location on the site is kept to a minimum.

The Contractor shall supply fire-fighting equipment in proportion to the fire risk presented by the type of construction and other on-site activities and materials used on site. This equipment shall be kept in good operating order.

Open fires for heating and cooking shall only be permitted in protected areas designated by the ECO for this purpose.

No fires will be allowed adjacent to the boundary fence, either inside or outside the construction site.

Any welding or other sources of heating of materials must be done in a controlled environment, wherever possible and under appropriate supervision, in such a manner as to minimise the risk of veld fires and/or injury to staff.

#### **C3.6.4.5 Storage of fuel and other materials**

Fuel, lubricants, transmission, and hydraulic fluids shall only be stored in the Works area.

All fuel tanks must be installed above ground, depending on the volume of stored fuel, for easy detection of fuel leaks. All fuel tanks must be placed on a thick plastic sheet so as to prevent soil pollution, be set in a bund with earthen walls, and maintained throughout the contract.

Areas made available for fuelling or greasing of equipment and vehicles must be clearly demarcated on the layout plan. In order to prevent soil pollution, these areas must be covered with a protective material (e.g. a thick plastic sheet). No fuelling, greasing, or filling of oils may take place outside these demarcated areas.

The Contractor must provide adequate and approved facilities for the storage and recycling of used oil and contaminated hydrocarbons. Such facilities must be designed and sited with the intention of preventing pollution of the surrounding area and environment.

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

Cement must be stored and mixed on an impermeable substratum.

#### **C3.6.4.6 Concrete batching plants**

Concrete must be mixed only in an area demarcated for this purpose. All concrete spilled outside this area, must be promptly removed by the Contractor and taken to a permitted waste disposal site. After all concrete mixing is complete all waste concrete must be removed from the batching area and disposed of at an approved dumpsite.

The batching plant shall be enclosed by a bund wall with divisions and dedicated compartments for the various types of materials. Air filters shall be monitored and cleaned and replaced as per the supplier's guidelines.

Storm water must not be allowed to flow through the batching area.

Water laden with cement must be collected in a retention area for evaporation and not allowed to escape the batching area. This pond will be cleaned monthly.

Operators must wear suitable safety clothing.

#### **C3.6.4.7 Safety**

Equipment and stores should be locked up and not left unattended.

The Contractor must ensure that no unemployed labour seekers are permitted to gather at the site and no camp followers/shebeen operators shall be allowed to operate on or adjacent to the site.

Measures must be taken to prevent any interference that could result in flashover of power lines due to breaching of clearances or the collapse of power lines due to collisions by vehicles and equipment.

Measures must be taken during thunderstorms to protect workers and equipment from lightning strikes.

All tall structures must be properly earthed and protected against lightning strikes.

The Contractor must have a first aid box available on site and on all vehicles working on site.

The Contractor must submit a copy of the minutes of weekly health and safety meetings to the ECO.

#### **C3.6.4.8 Blasting and drilling**

A written warning of 2 days indicating the date and approximate time period of blasting activities shall be given to affected residents for the temporary removal of sensitive domestic

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

animals such as horses, dogs, cats, birds, and cattle, before blasting and/or drilling activities commence during that period.

During blasting the stipulations of the Minerals Act, Act 50 of 1991 shall apply.

Should any warning not be given within the period specified above, the Contractor will be held liable for injuries to or deaths of the affected animals.

In order to minimise the potential impact on animals, it is proposed that soft explosives and/or noise mufflers be used.

When blasting, the Contractor shall take measures to limit flying rock. This may be achieved by matching the charge to the rock type, by using milli-second delay detonators or by using rubber blasting mats placed over the area to be blasted. Flying rock 150mm and larger which falls beyond the cleared working area shall be collected and removed together with the rock spoil.

When blasting under power lines the Contractor shall arrange for power to be temporarily switched off or have the lines moved.

#### **C3.6.4.9 Fencing**

Fencing shall be erected around sensitive natural or cultural elements to protect them from damage. No pedestrian or vehicular access shall be allowed to such fenced areas.

In places where temporary fencing is required, the Contractor shall erect such fencing and, when and where required by the Engineer, re-erect and maintain temporary fencing as necessary. Temporary fencing shall remain in position either until it is replaced by permanent fencing or until completion of the whole of the Works, unless the Contractor requires, or the Engineer directs its earlier removal. The Contractor shall erect and maintain the aforementioned temporary fencing in the locations and for the period described in the Contract.

If temporary fencing is removed temporarily for the execution of any part of the Works, it shall be reinstated as soon as practicable by the Contractor.

The clearing for permanent fencing shall be limited to the removal of trees and shrubs within 1m of the fence line. Where possible, the fence line must be aligned to retain trees or tree groups. There shall be no removal of the grass cover or topsoil within this width.

#### **C3.6.5 CONTROL OF DAMAGE TO VEGETATION AND ANIMALS**

The Contractor shall ensure that all works are undertaken in a manner which minimises the impact on vegetation and animals inside or outside of the Works area.

##### **C3.6.5.1 Vegetation**

As much of the existing vegetation as possible shall be retained. The removal of existing vegetation shall only occur at the sites designated for construction activities. Only woody

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

vegetation may be cleared. During clearing of woody vegetation no basal cover or grass and topsoil shall be removed and damage to this layer shall be minimised as far as possible.

Bush and grass veld must only be cleared to provide essential access for construction purposes.

No indigenous shrubs and/or trees shall be cut down by the Contractor. Removal, damage or disturbance of any vegetation outside the Works area is not permitted. Special care shall be taken not to disturb or destroy riverine vegetation.

Trees which have been selected for preservation by the ECO within or adjacent to the Works areas shall be fenced around their drip line. The fence shall be clearly marked with danger tape. No open fires shall be allowed within this fenced area, nor shall vehicles be parked underneath these trees. The area shall also not be used for materials storage or as allocation for temporary buildings. If such trees are located within the 15m working width of the pipeline, the pipeline shall be aligned to avoid these trees wherever possible.

Gathering of firewood shall not be permitted.

The Contractor shall take care that seeds are collected during the removal of alien vegetation in order to counter the spread of this vegetation type. Failure to do so may result in prosecution in terms of the Conservation of Agricultural Resources Act (Act 43 of 1983). A fine not exceeding R5000 and/or 2 years imprisonment can be imposed.

No vehicular access will be allowed on the grassy parts of the construction site.

**C3.6.5.2      Disturbance of animals**

Under no circumstances shall any animals be handled, removed, killed or interfered with by the Contractor, his employees, his sub-contractors or his sub-contractors employees. Snakes and other reptiles that may be encountered on the construction site must not be killed unless the animal endangers the life of an employee. Disturbances to nesting sites of birds must be minimized. Anthills and/or termite nests that occur in the Works area must not be disturbed unless it is unavoidable for construction purposes.

The Contractor and his employees shall not bring any domestic animals onto the site.

The Contractor shall ensure that the work site is kept clean and tidy and free from rubbish which would attract animal pest species. There shall be no feeding of native animals.

The Contractor shall ensure that domestic and native animals are safe from injury that may arise from unprotected Works.

The Contractor shall advise his workers and subcontractors of the penalties associated with the needless destruction of wildlife, as set out in the Animals Protection Act (Act 71 of 1962) sec. 2 (fine R2 000 and/or 12 months imprisonment).

<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>
Contractor	Witness 1	Witness 2	Employer	Witness 1	Witness 2

### **C3.6.6 CONTROL OF DAMAGE TO SOIL AND WATER**

#### **C3.6.6.1 Stripping of topsoil**

Topsoil shall be deemed to be the top 300mm layer of soil. This layer contains organic material, nutrients and plant and grass seed. For this reason it is an extremely valuable resource for the rehabilitation and re-vegetation of disturbed areas.

Topsoil shall be stripped from all areas that are to be utilized during the construction period and where permanent structures and access is required. These areas will include the area comprising the permanent works, pipeline trenches, stockpiles, temporary and permanent access roads, construction camps, lay down areas, and any other area as indicated on the Works area drawings. Topsoil shall be stripped after clearing of woody vegetation and before excavation or construction commences.

Soil shall be stripped to a minimum depth of 150mm and maximum depth of 300mm or to the depth of bedrock where soil is shallower than 300mm. Herbaceous vegetation, overlying grass and other fine organic matter shall not be removed from the stripped soil.

No topsoil which has been stripped shall be buried or in any other way be rendered unsuitable for further use by mixing with spoil or by compaction by machinery.

Topsoil shall be stripped when it is in a dry condition in order to prevent compaction.

Stripping of topsoil shall be undertaken in such a way as to minimise erosion by wind or runoff.

#### **C3.6.6.2 Stockpiling of topsoil**

Topsoil should be temporarily stockpiled, separately from (clay) subsoil and rocky material, when areas are cleared. The Contractor shall ensure that subsoil and topsoil are not mixed during stripping, excavation, reinstatement, and rehabilitation. If mixed with clay sub-soil the usefulness of the topsoil for rehabilitation of the site will be lost. Temporary soil stockpiles shall not be higher than 2,5m, and the slopes of soil stockpiles shall not be steeper than 1 vertical to 1,5 horizontal.

Areas from which topsoil is to be removed shall be cleared of any foreign material which may come to form part of the topsoil during removal including bricks, rubble, any waste material, litter any other material which could reduce the quality of the topsoil.

Soil must not be stockpiled on drainage lines or near watercourses.

No vehicles shall be allowed access onto the stockpiles after they have been placed. Topsoil stockpiles shall be clearly demarcated in order to prevent vehicle access and for later identification when required.

After topsoil stockpiling has been completed, the Contractor shall apply soil conservation measures to the stockpiles where and as directed by the Engineer / Environmental Officer.

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

This may include the use of erosion control fabric and/or grass seeding.

#### **C3.6.6.3 Placement of topsoil**

Topsoil shall be placed to a minimum depth of 150mm over all areas where it has been stripped, after construction in those areas has ceased. Topsoil placement shall follow as soon as construction in an area has ceased.

All areas onto which topsoil is to be spread shall be graded to the approximate original landform with maximum slopes of 1:2,5 and shall be ripped prior to topsoil placement. The entire area to be covered with top soil shall be ripped parallel to the contours to a minimum depth of 300mm.

Topsoil shall be placed in the same soil zone from which it had been stripped. However, if there is insufficient topsoil available from a particular soil zone to produce the minimum specified depth, topsoil may be brought from other soil zones on approval by the Engineer after consultation with the ECO.

Where topsoil that has been stripped by the Contractor is insufficient to provide the minimum specified depth, the Contractor shall obtain suitable substitute material from other sources at no cost to the employer. The suitability of the substitute material shall be determined by means of a soil analysis which is acceptable to the Engineer.

No vehicles shall be allowed access onto or through topsoil after it has been placed.

After topsoil placement is complete, cleared and stockpiled vegetative matter shall be spread randomly by hand over the area covered with topsoil.

#### **C3.6.6.4 Klip river and Rietspruit**

The Klip River is situated approximately 250 m to the west of the construction site at its closest point, and the Rietspruit approximately 300 m to the east.

Site staff shall not be permitted to use the Klip River or the Rietspruit for the purpose of bathing, washing of clothing or vehicles nor disposal of any type of waste.

The Contractor shall not in any way modify nor damage the banks or bed of the Klip River or the Rietspruit and its drainage lines, unless required as part of the construction project specification and in consultation with the Project Manager and the ECO. Abstraction of water from the Klip River is allowed provided that no damage to the banks of the Klip River shall occur. Should damage occur the Contractor will be held liable for any reparation and/or rehabilitation to the banks of the Klip River and for prosecution in terms of the National Water Act (Act No. 36 of 1998).

All fuel, chemical, oil, etc spills must be confined to areas where the drainage of water can be controlled. Appropriate structures and methods to confine spillages such as the construction of berm shall be provided.

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

### **C3.6.7 Control of pollution**

As a minimum requirement all waste emissions (hazardous, airborne, liquid and solid) from the site shall be kept within the limits of standards set in terms of relevant national and local pollution legislation and regulations.

#### **C3.6.7.1 General**

No waste of a solid, liquid or gaseous nature shall be emitted from the site without approval by the Engineer.

Precautionary measures must be taken to prevent any form of pollution.

Accidental pollution incidents shall be reported to the Engineer and the ECO immediately after they occur and shall be cleaned-up by the Contractor or a nominated clean-up organisation at the expense of the Contractor.

#### **C3.6.7.2 Soil**

Vehicle and plant maintenance shall be confined to the areas demarcated for this purpose. Should any amount of fuel, oil transmission or hydraulic fluids be spilled onto the soils the Engineer and the ECO shall be informed immediately. If ordered by the Engineer, tests must be conducted to determine the extent of soil contamination. The polluted soil shall be rehabilitated or remediated to the satisfaction of the Engineer, after consultation with the ECO. Proof of disposal of contaminated soil must be submitted by the Contractor to GDACE within 14 days of the disposal thereof.

#### **C3.6.7.3 Water**

Water containing waste shall be prevented from entering the Klip River or the Rietspruit either by seepage or natural flow. Oil absorbent fibres must be used to contain oil spilled in water.

Cost effective measures must be taken to minimise the flow of surface water to trench excavations.

On-site storm water management over the construction site shall be to the satisfaction of the Engineer.

#### **C3.6.7.4 Air**

All reasonable measures should be taken to minimise air emissions in the form of smoke, dust, and gases.

All machinery and vehicles used for the Works shall be in good working order. Any vehicle or piece of machinery that visibly emits excess pollutant shall be removed from site.

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

Waste must not be allowed to stand on site to decay, resulting in malodours. No fires shall be allowed if smoke from such fires will cause a nuisance to neighboring residents.

#### **C3.6.7.5 Sewage**

Any spillage of sewage caused by the Contractor or any of his employees or subcontractors during the construction activities shall be cleaned up at the expense of the Contractor.

### **C3.6.8 MANAGEMENT OF WASTE**

In practice all wastes arising from construction activities are to be handled, transported and disposed of in accordance with the relevant regulations. All efforts should be made to minimise, reclaim or recycle waste, and failing that, dispose of it in a manner licensed by the government for that purpose.

#### **C3.6.8.1 Sanitation**

The Contractor shall provide adequate sanitation facilities in accordance with Clause PSA 1.2 hereof. The use of the surrounding veld for toilet purposes shall not be permitted under any circumstance.

#### **C3.6.8.2 Wastewater**

*Definition: Wastewater is water that is contaminated by humans through their actions.*

All run-off from fuel depots, workshops, truck washing areas, and washwater from concreting vehicles and other equipment shall be collected and directed through pollution traps to the operational sewers. If connection to the sewers is not possible, the wastewater shall be collected in settlement ponds, which shall be suitably lined at the Contractor's expense.

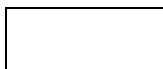

Wastewater may not be disposed of directly or indirectly into the Klip River or the Rietspruit. The Contractor shall provide suitable retention and filtration structures (which shall be properly maintained) for the collection of wastewater.

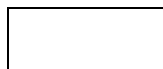

The Contractor shall provide washing and changing facilities. All run-offs from these washing and/or changing facilities shall be contained in the retention structures to the satisfaction of the Engineer.

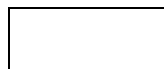

#### **C3.6.8.3 Solid waste**

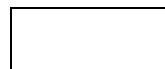

*Definition: "Solid Waste" refers to all construction waste (such as rubble, cement bags, waste cement, timber, cans, other containers, wires and nails), household and office waste.*

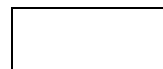

Solid waste shall be collected and stored in demarcated, fenced areas in skips and/or bins. The fenced areas or containers should be designed to prevent solid waste from being blown out by wind and should be strategically and conspicuously placed throughout the site.

  
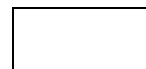

Contractor

  
Witness 1

  
Witness 2

  
Employer

  
Witness 1

  
Witness 2

Wherever possible solid waste that can be recovered shall be recycled.

Solid waste shall be disposed of at a registered solid waste disposal site. The prices submitted by the Contractor shall include all transportation and disposal costs of waste. Solid waste shall not be buried nor burned on site.

The entire works area and all construction sites must be swept of all pieces of wire, metal, wood or other material foreign to the natural environment.

#### **C3.6.8.4 Hazardous wastes**

*Definition: Hazardous wastes are those which are proven to be toxic, corrosive, explosive, flammable, carcinogenic, radioactive, poisonous or as determined by the Hazardous Substance Act as amended.*

Discharges of hazardous chemicals (such as paint, turpentine, oil and cement), as declared under the Hazardous Substances Act as amended, on the site or to the storm water system are prohibited.

Potentially hazardous raw and waste materials shall be handled and stored on-site in containers with tight lids that must be sealed and must be disposed of at an appropriately permitted hazardous waste disposal site. Such containers must not be used for purposes other than those originally designed for.

The following hazardous waste products shall be disposed of at a registered hazardous waste disposal site:

- a) cement;
- b) diesel, petroleum, oil and lubricants;
- c) explosives;
- d) drilling fluids;
- e) pesticides;
- f) paints and turpentine;
- g) concrete additives; and
- h) any other material which is listed in terms of the Hazardous Substances Act.

The Contractor must maintain a hazardous materials register.

#### **C3.6.9 MANAGEMENT OF STORMWATER AND SOIL EROSION**

The aim is to minimise soil loss from the site due both to wind and water.

##### **C3.6.9.1 Storm water**

At all stages of the contract, storm water control measures shall be applied to keep soil on-site by minimising

- a) Erosion or leaching of water from temporary stockpiles of topsoil and permanent spoil

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

- dumps
- b) Erosion from construction roads, excavations and borrow pits, where applicable
  - c) Silt-laden run-off from all areas stripped of vegetation, including excavation surfaces and stockpiles of spoil and topsoil (the correct placement of rocks together with straw bales can be used to prevent silt-laden run-off); and
  - d) Contaminated run-off from storage areas;

Thereby preventing it from entering waterways or the storm water drainage system.

Natural storm water run-off that is not polluted by site operations shall be diverted around spoil dumps and topsoil stockpiles. Effective measures shall be taken to minimise the flow of storm water to excavations.

Where uncontaminated storm water has accumulated in excavations and needs to be pumped out, it must be disposed of in such a way that erosion does not occur along the course of its passage. Contaminated storm water shall not be disposed of into the waterways, unless it has been treated to the satisfaction of the Engineer, after consultation with the ECO.

#### **C3.6.9.2 Control of erosion**

At all stages of the contract, erosion of bare soil, other excavation surfaces and stockpiles of topsoil and spoil shall be prevented by the application of erosion control measures.

Should erosion occur due to negligence on the part of the Contractor to apply adequate measures, the Contractor will be responsible for reinstatement of the eroded area to its former state at his own expense. Any surface water pollution occurring, as a result of this negligence, shall be cleaned up by the Contractor or a nominated clean-up organization at the expense of the Contractor.

Cross and side storm water drainage measures shall be constructed on access and haul roads to the site and on roads within the site.

The Contractor shall ensure that run-off from access and haul roads, and that diverted into cross and side drains, does not cause erosion

#### **C3.6.10 CONTROL OF DISTURBANCE TO NEIGHBOURS AND/OR AFFECTED RESIDENTS**

All issues and items agreed to in the negotiations and discussions between the Owner and affected residents must be implemented.

##### **C3.6.10.1 Scenic quality**

The Contractor shall position all temporary structures as well as temporary plant on site in locations and at elevations which limit visual intrusion on neighbours. The type and colour of roofing and cladding materials shall be selected to reduce reflection.

The Contractor shall not establish or undertake any activities which, in the opinion of the Engineer, are likely to adversely affect the scenic quality of the area. The Engineer may

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

direct the Contractor to refrain from such activities or to take ameliorative actions to reduce the adverse effect of such activities on the scenic quality of the environment.

No painting or marking of natural features shall be done. Marking for surveying and other purposes shall only be done with pegs and beacons.

All cut and fill forms shall be rounded at the edges to blend them with the surrounding landforms.

All packed rock and exposed rock cuttings shall be treated in order to blend their colour with the colours of the natural weathered rocks of the adjacent environment.

The colours of all permanent structures shall be chosen so as to blend in with the dominant colours of the surrounding landscape. Painted surfaces shall be painted with non-reflective (matt) colours.

**C3.6.10.2 Noise**

All noise levels must be controlled at the source. All employees must be given the necessary ear protection gear. Neighboring residents must be informed of excessive noise factors.

Noise emanating from construction activities must not be "disturbing noise", that is, the sound level from the site measured at the nearest dwelling must not exceed the ambient noise level by 7dBA or more.

Appropriate directional and intensity settings should be maintained on hooters and sirens, if applicable.

Silencer units on plant and vehicles shall be maintained in good working order. Any vehicle/machine emitting excess noise shall immediately be removed from site or effectively repaired.

Where required by the ECO after consultation with the Engineer, the Contractor shall provide noise reduction measures in the form of cladding and earth berm between sources of on-site noise and neighbours and/or affected property owners.

A speed restriction of 40 km/h shall be imposed on all construction vehicles in order to limit additional noise generated by these vehicles. This restriction shall apply to the site and any road within 2 kilometers of the site.

No loud music shall be allowed on site and in construction camps.

**C3.6.10.3 Dust**

The Contractor shall ensure that a minimum of dust is generated by construction and related activities. Roads and working areas should be maintained regularly and this may include the sprinkling of water. Water for this purpose shall be used sparingly to not generate run-off and resulting soil erosion.

<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>
Contractor	Witness 1	Witness 2	Employer	Witness 1	Witness 2

The Contractor shall control dust from spoil dumps as specified above.

Soil and aggregate loads in transit must be kept covered, to prevent wind borne pollution (dust).

Stockpiles of soil must be kept covered or have a suitable dust palliative applied, such as water or commercial dust suppressants, to prevent windborne pollution.

#### **C3.6.10.4 Social interaction and disruption**

The Contractor shall maintain normal working hours (i.e. from 07:00 until 17:00) from Mondays to Fridays for the duration of the construction period. The Contractor must inform all adjacent landowners of any after-hour construction activities and any other activity that could cause a nuisance e.g. the application of chemicals to the work surface.

The Contractor's activities and movement of staff shall be restricted to designated construction areas only. The Contractor and site staff may not interact directly with adjacent landowners but only through the Engineer, who will contact property owners to obtain permission.

The Contractor's staff shall wear special identity cards (with the employees photograph displayed on the card), which shall make identification possible, at all times. Any temporary staff employed by the Contractor or any sub- contractor appointed by the Contractor shall also comply with this clause.

Rapid migration of job seekers could lead to squatting and social conflict with resident communities and increase in social pathologies if not properly addressed. The Contractor must ensure that signs indicating the availability of jobs are installed.

Criteria for selection and appointment, by the Contractor, of construction labour must be established to allow for preferential employment of local communities.

#### **C3.6.10.5 Disruption of services and access**

Care must be taken by the Contractor to avoid damaging major and minor pipelines and other services. The relevant authorities must be notified of any interruptions of services, especially the Mid Vaal Local Municipality, the National Roads Agency, SpoorNet, TELKOM and ESKOM.

Disruption of access for local residents during construction, and haulage or any other construction activity shall only take place with the prior consent of the Engineer.

The Contractor shall liaise with the Engineer on a regular basis with regard to specific activities that could cause inconvenience to property owners, especially increased vehicular traffic through residential areas adjacent to the site. The Contractor shall prior to commencement inform property owners of his planned activities within a reasonable period of time.

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

The movement of construction vehicles through the affected areas shall be restricted to off-peak hours to minimise adverse impacts on private vehicular traffic. Temporary access roads must not be opened until required and must be restored to its former state as soon as the road is no longer needed.

#### **C3.6.10.6 Traffic control**

The Contractor shall ensure that all construction traffic including that of subcontractors, vendors, suppliers of materials and services are notified that a special speed limit of 40 kph shall apply along any road within the adjacent Klipwater Township; and special attention shall be given to road signs. Vehicles not complying with this ruling shall on the instruction of the Engineer, be denied access to the Site.

#### **C3.6.11 Archaeology and cultural sites**

All finds of human remains must be reported to the nearest police station.

Human remains from the graves of victims of conflict, or any burial ground or part thereof which contains such graves and any other graves that are deemed to be of cultural significance may not be destroyed, damaged, altered, exhumed or removed from their original positions without a permit from the South African Heritage and Resource Agency (SAHRA).

Work in areas where artefacts are found must cease immediately.

Under no circumstances must the Contractor, his/her employees, his/her sub- contractors or his/her sub-contractors' employees remove, destroy or interfere with archaeological artefacts. Any person who causes intentional damage to archaeological or historical sites and/or artefacts could be penalised or legally prosecuted in terms of the National Heritage Resources Act, 25 of 1999.

A fence at least 2m outside the extremities of the site must be erected to protect archaeological sites.

All known and identified archaeological and historical sites must be left untouched.

Work in the area can only be resumed once the site has been completely investigated. The Engineer will inform the Contractor when work can resume.

#### **C3.6.12 REHABILITATION**

It is important that rehabilitation will commence as soon as feasible and to run in parallel with the construction and not to be left until completion of the works. This will increase the chances of successful rehabilitation as it can be monitored throughout the construction period.

The construction site shall be cleaned and rehabilitated as close as is reasonably possible

Contractor

Witness 1

Witness 2

Employer

Witness 1

Witness 2

to its original state.

All drainage deficiencies must be corrected.

Cut and fill areas must be restored and re-shaped.

Areas compacted by vehicles during construction must be scarified to allow penetration of plant roots and the re-growth of natural vegetation.

Rehabilitation of all the disturbed and compacted areas shall mean that these areas are ripped and covered with topsoil.

- Ripped shall mean - ploughed with a ripper to a depth of not less than 300mm in two directions at right angles.
- Top soiled shall mean - the spreading of a minimum of 150mm of stockpiled topsoil either before or after ripping over the surface to be rehabilitated.

The areas immediately adjacent to the Works which are not designated for paving shall be grassed in accordance with the relevant engineering specification.

All alien vegetation removed during construction shall not be replaced.

The rehabilitated areas will be weeded by the nominated rehabilitation contractor for a period of 1 year.

### **C3.6.13 RESPONSE TO PUBLIC COMPLAINTS**

The Contractor shall assist the Engineer with responding to queries and complaints from the public regarding construction activities by:

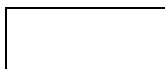

- Documenting the details of such communications and submitting the information to the Engineer for inclusion in the complaints register;
- bringing any such matters to the attention of the Engineer immediately as they arise;
- taking any remedial action as per the Engineer; and d.) discuss such matters at the site meetings.

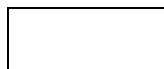

The Contractor shall assist the Engineer and consult with affected parties for the purpose of explaining the construction process and answering questions raised by affected parties at reasonable times.

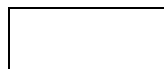

Should the owner of any property, contact the Contractor during the construction period regarding specific requests, the Contractor shall include all pertinent details in his report (Section 2.3 hereof).

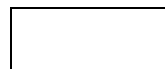

### **C3.6.14 CLEARANCE OF SITE ON COMPLETION**

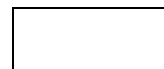

On completion of the Works, the Contractor shall clear away and remove from the site all construction plant, surplus materials, foundations, plumbing and other fixtures, rubbish and

  
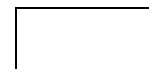

Contractor

  
Witness 1

  
Witness 2

  
Employer

  
Witness 1

  
Witness 2

temporary works of every kind. Areas thus cleared shall be graded and scarified to restore the ground to its original profile as near as practicable before topsoil placement.

**C3.6.15 COMPLIANCE WITH ENVIRONMENTAL MANAGEMENT SPECIFICATIONS**

- a.) All persons employed by the Contractor or his subcontractors shall abide by the requirements of these Environmental Management Specifications.
- b.) Any employees of the Contractor or his subcontractors found to be in breach of any of the Environmental Management Specifications may be ordered by the Engineer to leave the site forthwith. The order may be given orally or in writing. Confirmation of an oral order will be given as soon as practicable but lack of confirmation in writing shall not be a cause for the offender to remain on site. No extension of time will be granted for any delay or impediment to the Contractor brought about by a person ordered to leave the site.
- c.) Supervisory staff of the Contractor or his subcontractors shall not direct any person to undertake any activities which would place such person in contravention of the Environmental Management Specifications.
- d.) Via these specifications the Contractor has been made aware of what actions are required of him and/or his subcontractors. Certain do's and don'ts have been given and onus for compliance rests with the Contractor as he is the only person capable of controlling these aspects. A fine/reward system will be implemented to encourage compliance. For every week that the Contractor successfully complies with the Environmental Management Plan and Specifications a bonus sum of R500 will be generated. However, for each and every time that the Environmental Management Plan and Specification is not met, a fine of R500 will be imposed.

<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>	<div style="border: 1px solid black; width: 100px; height: 30px;"></div>

## DRAFT PERFORMANCE EVALUATION MANAGEMENT

The Municipal Finance Management Act (No. 56 of 2003) Section 116 (2) (d) determines that a Municipality must enter into a Performance Management System (PMS) with all service providers.

A PMS will be concluded with the appointed bidder and the costing for this project will run during the 2023/2024, 2024/2025 and 2025/2026 financial budget years.

The following document is a draft of the performance evaluation that will be conducted with the awarded bidders on a regular basis as determined in the Service Level Agreement. The final performance evaluation document will be finalised at SLA stage and signed together with the SLA and will be annexed to the SLA.

The OPERATIONS Department will monitor performance on a monthly basis at scheduled meetings with the service provider where minutes of progress, activities, challenges, risks encountered, and planned work will be recorded. Evaluation will be based on progress, outputs, targets on key deliverables and compliance to the reporting timelines as specified. The draft Performance Evaluation Document is attached to this document for ease of reference and will be finalised at signing of the service level agreement.
