## **SCOPE OF WORK**

FPQ2410/09: CONDUCT A MAJOR HAZARDOUS INSTALLATION RISK ASSESSMENT AT OLIFANTSFONTEIN, WELGEDACHT, HARTEBEESTFONTEIN AND WATERVAL WCW

---

Bidders are hereby invited to submit an offer for:

### **BACKGROUND**

ERWAT is a specialised water care company, established in 1992. ERWAT provides bulk wastewater conveyance and treatment to thousands of industries and more than 3,5 million people. It currently operates 19 wastewater care works (WCW), treating a combined capacity of between 700 megalitres and 1000 megalitres (million litres) of wastewater per day (Ml/d) depending on the season.

ERWAT as a legal entity has an obligation to comply the requirements of the Occupational Health and Safety Act 85 of 1993 (OHS Act). The OHS Act contains the Major Hazard Installation (MHI) Regulations which lists a number of 'named substances' which present on site and if in excess of the quantity listed as per the Regulations, would result in the duty holder or owner to register the site as a MHI site with the Department of Employment and Labour and the local municipality.

As part of the wastewater treatment process, water is disinfected with chlorine that is purchased in 1 ton cylinders (925 kg cylinders). In some of the WCW more than 5 of these types of cylinders are kept at any given time, which is in excess of the prescribed quantity of substances listed in Chapter 1 of the MHI Regulations. The handling of the abovementioned chlorine may result in these facilities classified as MH establishment.

Due to the above, ERWAT has identified the need to commission an Approved Inspection Authority (AIA) to conduct a full Risk Assessment in accordance with the Major Hazard Installation Regulations to determine the potential for causing major incidents and quantify the risks to the employees and public, from potential major incidents in accordance with the Act and Regulations.

Such a risk assessment will be used to determine the classification of the MH establishment and acceptability of risk, to provide the required documentation for the establishment, assess whether there are sufficient and suitable emergency plans and facilities in place to deal with any such major incident, should it occur,

The assessment shall indicate organizational measures that may be required, risk reduction proposals and any other relevant matter, and in so doing, coordinate the notification process as required by MHI regulations 4.

### **SCOPE OF WORK**

ERWAT require the services of an Approved Inspection Authority: Major Hazardous Installation to conduct a full risk assessment in accordance with the Major Hazard Installation Regulations and SANS 1461:2018 that may be used as notification of the facility.

The scope of the works includes:

- Carrying out MHI Risk assessment on ERWAT Chlorine Dosing Facilities at Olifantsfontein, Hartbeesfontein, Waterval and Welgedacht wastewater care plants.
- Provide such assessments and required attachments to the client
- Compiling MHI risk assessment reports which must at least cover:
  - a) Defining the scope of work;
  - b) Gathering relevant data;
  - c) Hazard identification;
  - d) Hazard analysis;
  - e) Consequence analysis;
  - f) Risk calculations (including individual and societal risk);
  - g) Risk judgement criteria;
  - h) Risk treatment;
  - i) Estimate the probability of major incidents and provide graphical outputs showing consequence effects distances for the incidents
  - j) Land-use planning;
  - k) Reviewing the suitability of the emergency plan in accordance with SANS 1514 MHI Emergency Response Planning and organisational measures in terms of the risks and where necessary provide ideas on any possible improvements in the light of the risk assessment results;
  - l) Any organisational measures that may be required

- m) Other as required by the Regulations and relevant SANS Codes;
- n) Conclusions and recommendations.
- Provide specific realistic recommendations for implementation by ERWAT to reduce the risk to an acceptable level.
- Reviewing of the draft Major Hazard Installation risk assessments and incorporating ERWAT feedback
- Risk assessment reports must be submitted within 14 days (or as agreed), after the assessment.
- Preparation and review of MHI Documentation depending on classification.
- Facilitate the notifications of existing establishments and send them to the chief inspector, relevant chief director: provincial operations and local government on Form A on behalf of ERWAT
- Involvement and facilitation of public participation
- Presentation of reports to Health and Safety Committee.
- Guidance and coordination of the notification process
- Placement of Advert in local newspaper
- Involvement and facilitation of public participation
- Provide training in terms of Major Hazardous Installation Regulation 17.

The AIA will perform the risk assessments in consultation with ERWAT personnel who understand the design and operating philosophy of the installation.

The AIA will indicate the methodology to be followed to perform the risk assessments, simulation software to be used and the criteria for the determining risk levels the sources of data to be used for the Risk level calculation such as failure rate data etc.

## **FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES**

### **POINTS AWARDED FOR PRICE**

A maximum of 80 points is allocated for price on the following basis:

The 80/20 formula will be used to calculate the points for price in respect of bidders with a Rand value below R50 000 000.

80/20

$$Ps = 80 \left( 1 - \frac{Pt - P_{min}}{P_{min}} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmax = Price of highest acceptable tender

### **POINTS AWARDED FOR SPECIFIC GOALS**

In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:

<b>The specific goals allocated points in terms of this tender</b>	<b>Evidence required but not limited to the following:</b>	<b>Number of points allocated (80/20 system)</b>	<b>Number of points claimed (to be completed by the bidder)</b>
EME or QSE 51% owned by women	CK document Full CSD report ID documents of company owners/ directors/ shareholders	4	
EME or QSE 51% owned by youth: <i>(Means persons between the ages of 14 and 35 in terms of the National Youth Development Agency Act, 2008. For this bid, the date to be used for the determination of age will be the closing date of the bid and in a case where the closing date of a bid has been extended, the original (first) closing date shall be used to determine age).</i>	CK document Full CSD report ID documents of company owners/ directors/ shareholders	4	
EME or QSE 51% owned by people with disabilities: <i>(means in respect of a person, a permanent impairment of a physical, intellectual, or sensory function, which results in restricted, or lack of, ability to perform an activity in the manner, or within the range, considered normal for a human being).</i>	Proof of disability issued by medical doctor CK document Full CSD report ID documents of company owners/ directors/ shareholders	4	
EME or QSE 51% owned by military veterans: <i>(Means any South African who rendered military service to any of the military organisations, former statutory and liberation armies, which were involved on all sides of South Africa's liberation war from 1960 to 1993; served in the then Union Defence Force before 1961 or became a member of the SANDF after 1994 and has completed his or military training and no longer performs military duties, and has not been dishonourably discharged from his or her respective military organisation).</i>	Certified copy of A Department of Defense (DoD) Identification Card CK document Full CSD report ID documents of company owners/ directors/ shareholders MV Force number	4	

The specific goals allocated points in terms of this tender	Evidence required but not limited to the following:	Number of points allocated (80/20 system)	Number of points claimed (to be completed by the bidder)
EME or QSE within the boundaries of Ekurhuleni Municipality: <i>(means a business operating within the City of Ekurhuleni).</i>	Municipal account/ lease agreement of company or owners/ directors/ shareholders	4	

The above information will be verified in accordance with the bidders B-BBEE certificate, and or a certificate from the companies and intellectual property commission (CIPC), the department of Military Veterans and or other supporting documents. All supporting evidence must be submitted in order to claim the preferential procurement points claimed. ERWAT reserves the right to verify the information submitted.

In the case of multi-parties (Joint ventures, consortiums, partnerships, etc.), allocation of points will be calculated by adding the individual parties in the JV, etc. ownership % together; divide the total by the number of parties in the respective joint ventures, consortiums, partnerships, etc. The average % will thus be the indicating factor for the number of points to be scored.

e.g. Joint venture:

Party 1 = 51% EME/QSE owned by women  
Party 2 = 100% EME/QSE owned by women  
= 151% / 2 parties in the JV = 75% and will score = 4 points

The above principle will apply to points 1, 2, 3 & 4 indicated in Table 1 above.

For point 5: The collective JV agreement's address, or the Lead JV partners' domicile Address will be utilized for scoring of points.
